Why we do it

Shriners Children’s Salt Lake City serves our community by providing Orthopedic care to children without regard to a patient’s ability to pay. No child or parent is ever required to pay for the “most amazing care, anywhere” that Shriners provides.

Shriners Children’s Salt Lake City is unique in that it manufactures custom wheelchairs specifically designed to meet the unique needs of each patient, without regard to their ability to pay.

Those patients with insurance may receive reimbursement one every 5 years. Most patients require several significant modifications to their wheelchair during that period without benefit of insurance. Thus Shriners pays for any new wheelchair or modifications during each of those 5 year periods at great expense.

Give generously to Children’s Charity Challenge on behalf of Shriners Children’s Salt Lake City
