# Four service lines, one partner.

Whatever the need — a single report, a flexible resource, or a full project — Actuarix delivers with senior review, local context, and strict confidentiality.

## Actuarial Services

Valuations and reporting across IAS 19, Ind AS 19, AS 15. Road Accident Fund reports. Pricing, reserving, capital modelling, and independent actuarial opinions.

## Actuarial Talent Solution

Flexible resourcing with pre vetted actuarial talent, or end to end project delivery under strict confidentiality. You provide the need, we process and deliver.

## Accounting & Advisory

Audit, taxation, compliance, and registrations. An integrated back office for organisations that value a single trusted partner.

## Elevate & Career Counselling

Structured, practitioner led development for aspiring actuaries. One on one counselling and the Actuarix Elevate cohort programme.

# Built on three commitments.

Three promises that show up on every engagement, whatever the scope, geography, or duration.

01

## Global reach, deep expertise

Our practitioners bring multi domain experience across life, general insurance, health, pensions, and employee benefits. We serve clients globally and adapt our methodology to local regulatory context.

02

## Structured process, strict quality

Every engagement runs on a documented delivery process with senior review, peer check, and data security protocols designed for regulated environments.

03

## Flexible partnership, your terms

Choose resource based staffing, fixed price project delivery, or a blended model. Scale up or down as your workload evolves. White label and co branded engagement available.
