**Plant and Garden Design Consultation: Kendall Victorine**

***Please keep Nan informed when your team is going to the garden and we will make arrangements to provide help and give direction if necessary.***

\*Club membership status unknown as of 3-1-22 (printing)

## INSTRUCTIONS & TIPS

### MARGARET MYERS MEMORIAL GARDEN

*The Margaret Myers Memorial Garden is a long-standing project of our garden club. It is the responsibility of the entire club and we would hope that each member will do his/her part to help to make this a garden one we can be proud to have our name on. As the old saying goes "Many hands make light the work." It also makes the work more fun to have a several people working together! This is one of the ways we give back to the community and we have received many wonderful comments on the garden and many expressions of appreciation.*

- Each member has been assigned to one of four teams and each team assigned five weeks during the season where they are responsible for the care of the garden. This means that each member will be responsible for helping in the garden no more than five weeks the entire season.
- We understand that vacation schedules, illness, whatever may prevent you from working on your designated week. However, we ask that you then volunteer to help some other time even though it is not your turn.
- It's always more enjoyable to work as a group, but if you cannot and would like to go to the garden and work by yourself, that is fine. It would be very helpful if you would notify your team leader or one of the team members know when you have gone down to work, along with letting them know what you did. We want to avoid overwatering—the garden may appear dry, but a team member may have given it a good soak earlier in the day. ***Just keep your team leader informed and ask them for guidance! Your team leader will receive a brief for the week with to-do items for the team.***
- After initial planting is complete, work in the garden will involve weeding, dead-heading and watering depending on the weather. Suggested items to bring with you to the garden are:
  - Basic garden tools - weeder, trowel, etc.
  - Container/bag to collect garden debris
  - Kneeling pad or bench
  - Hat, gloves, sun protection
  - Water!
