Cupping

I get the cupping done on my back and hand and have had a lot of success eliminating a majority of discomfort. I find it to be incredibly relaxing and Zhihong has such a calming presence as it is and really takes her time with her patients to get to the real issue! As if that isn't reason enough to go..... she makes it very affordable! Seriously I look forward to every visit because I know how good I will feel afterwards!

**Hong is beyond amazing!**

I have been going to Hong for over 5 years now. She is beyond amazing! She treated my vertigo when 9 months of Yale Specialists could not! She treated my arthritis, energy level, ability to sleep better, and many other issues. One of her assistants had told me that in China, a chronic problem was treated with acupuncture daily for weeks to get better. I did go to her 2 times/wk for 4 months for a chronic problem I had and she healed it. I can't say enough good about Hong and the amazing focus an

**Painful**

I appreciate her knowledge and also her determination to decrease my hip pain, but I found her physical touch painful. I stated that my back is sensitive to touch and she continued to poke at it and my hips so hard I ended up crying on the table. Unfortunately, my pain did not go away and now I have an additional bruise where she was poking me near my spine. I think it's best that I not go back.

**Fantastic**

I get such relief at Clove tree, Zhihong is amazing and noticed things that are wrong before I even tell her! I love the cupping. I initially thought it was just going to be the acupuncture needles but she does soooo much more. The community setting is way more comfortable than you would think. I never see what is going on with anybody else. Its a quiet and relaxing atmosphere.

**AMAZING**

My first experience with acupuncture was AMAZING. Have been dealing with sciatica 8 months ago and must have tweaked it this past week. Decided to visit Hong who was highly recommended by some friends and was not disappointed. Felt immediate relief and now am more mobile. Still have some pain but not nearly to the degree it was a week ago. Will be seeing Hong again this this week. Thank you!!

cure for nerve numbness in feet

Zhi Hong has a great gift of healing through the traditional Chinese medicine acupuncture treatment. Though I am a bit shy of having strangers see the pins in my feet in this community setting, I trust her efforts in the healing of the neuropathy in my feet. The areas of numbness has decreased in my feet and I have gotten better balance now.

I need a Face Lift!

After 7 years of weekly visit with Hong, I thought we had pretty much treated most of my body parts :). Then, I asked about an Acupuncture Face Lift. Hong has worked on my face twice and the deep lines on either side of my mouth are less deep and the area seems plumper. I now have a list of other facial areas I want treated. it's a miracle and there is no cutting like Face Lift surgery would require.

fantastic results.

I came to Zhihong Shang to help reduce the amount of pain meds I was using before hip surgery. This was my first time experiencing acupuncture and cupping techniques. Her approach was comprehensive and highly compassionate and professional. I noticed results after my very first visit, but quickly reduced pain that ranged from 6-8 to mild discomfort ranging 1-3.

In March, I will have been a patient of Hong's for 6 years with weekly appointments. At this point, Hong has treated a myriad of problems with great success. However, the everlasting total effect has been the balance that acupuncture has brought to me physically, emotionally and even spiritually.

A DIFFERENT REVIEW

I was at good friend's party and one guest was complaining of all the lifting he would have to do for an art show coming up. My friend and I looked at each other and then immediately began touting all the wonderful things Hong can do to help this gentleman's back. General conversation stopped and all ears turned to my friend and I as we spoke of the different ways Hong has helped us, a conversation of interested people trusting their friends opinions.

I have suffered with Osteoarthritis in my knees and an auto accident further complicated my knee pain. I was prescribed a NSAID but after reading about the many side effects, using the medication became worrisome. I am a long time patient of Hong's, so I began treatment for this problem. I knew this approach might take longer to relieve the pain. However, I opted for an incredibly safe and effective alternative. Feeling much better!

**Root of the Problem**

After an eye infection, my left eye was drooping. My Ophthalmologist suggested cosmetic surgery. Not wanting surgery, I went to Hong and she explained, as an older person, I was experiencing a type of prolapse related to my energy level that leads to bodily functions that may be stalled or not working improperly. Since we already have everything to be well, Hong designed an acupuncture strategy including an herbal formula to address the root of the problem. A process that will take time.

Mind, Body and Soul

Acupuncture is a process that requires time and letting go of quick fixes like medications. In many ways, it is based on the fact that we already possess what we need to be well. For me acupuncture is a balance of mind, body and soul. My mind thinks about health in new ways. My body when depleted and out of wack has benefited and my soul is closer to nature.

Acupuncture and Balance

As a patient of five years, Hong treated me for a variety of conditions. Recently, I had an eye infection from an allergy and I was exhausted from a trip. In Acupuncture treatment it is believed that health is a result of harmonious balance and this element was lacking in my body. There are 350 Acupuncture points and I thought Hong had used most of them. I was wrong. Pain relief and strengthening

After 5 lumbar fusions I had recurring pain that would not allow me to get a full night's sleep. Ms. Shang, over the course of 10 weeks, has reduced this to almost non-existent and also helped me regain lost strength in my right leg. I can now walk up and down stairs leg over leg, rather than one step at a time. My only other choice was to go to a pain management doctor who would only mask the situation with drugs with no chance of strengthening my leg. She is very affordable and caring

Love Clove Tree Community Acupuncture

I have been seeing Dr Shang on and off for the last 2 yrs. She has helped me with stress, smoking cessation, sinus pain/congestion and hot flashes. I have been receiving acupuncture every 2-3 mos for the hot flashes and they are completely gone! This has been a life saver. She is the best, I highly recommend this business!!

Strong treatments with a gentle heart

Due to the hectic holidays, I was unable to set appointments with Hong for two weeks. Usually, I see her weekly for an on going sciatica problem. Hong was concerned that I was in unusual pain and her treatment was aggressive and strong. After the treatment I had no pain and walking out of the office the stress I have from the pain had disappeared too. Weekly visits are very necessary for me and would highly recommend that for future patients. Hong offers strong treatments with a gentle heart.

relief from back pain

After having 5 back surgeries, I was still left with spasms that would wake me from a sound sleep. The neurosurgeon told me he could do nothing more for me, and referred me to a pain management specialist. I didn't like the idea of being on drugs the rest of my life. I decided to investigate acupuncture. Well, what a surprise! After 6 treatments from Ms. Shang, My pain has almost disappeared. I cannot say how much benefit I have gotten from these treatments. Now I can get a full nights sleep.

Caring and Nurturing Treatments

Hong has treated me for over 3 years. I have a chronic sciatica problem and I tried other therapies in the hope that I would find relief. However, acupuncture has proven to be the best treatment. Hongs knowledge, caring and nurturing treatments and genuine concern for her patients sets her apart from other doctors. It is easy to establish a wonderful patient/doctor relationship with her. Recently, during a treatment, Hong said that she gives strong therapy but she has a good heart. How true!

**Excellent Care that Brings Results**

Dr. Shang is present, attentive, thoughtful, respectful, and kind. Her community model is inspiring and very helpful, because it allows me to afford as many treatments as I truly need, and reflects her real commitment to helping all people. First time for Acupuncture

I tore the ligaments in my knee six years ago. Went through two rounds of physical therapy and followed doctor's prescription for a workout routine at the local gym to strengthen my knee. Still could not totally straighten my knee, or put all my weight on that leg, was still in pain. After the first acupuncture session the pain was greatly reduced; the circulation was much better. After second session I can now straighten the knee and put all my weight on it. I'm sold!

Already booked next appt....great first impression

Even though I was expressing interest in herbal supplementation as well, I was grateful for Zhihong's honesty in not pushing or promoting the herbs just yet, but rather to follow her advice for one week and then we would reassess later. Very rare nowadays to find anyone who is not eager for another potential sale of products that might not even end up being needed. Just the fact that she allows payment based on what you can afford shows how much integrity she has as a practitioner.

Relief at last!

Zhihong takes the time to understand what it is that plagues you, no matter how strange. I have an itch condition that has befuddled dr's for 15 years. It became particularly bad this summer, leaving my arms covered in scars (from fervent scratching) & disrupting my sleep. The 1st time Zhihong bled/cupped me, I fell asleep. This place has been a wonderful experience. I was not sure how to feel about it because I had never done it before. Pain free amazing!!!

I had been suffering from nerve pain from pinched nerves in my neck and carpal tunnel. I was not getting any relief from medications, and wanted to avoid surgery. Physical therapy helped, but only kept the pain at a manageable level. Desperate and not really thinking it would help I tried it (and I hate needles). After the first accupuncture treatment I had NO pain, and the needles are very thin and are opened from a sterile package. Just give it a try, only thing you can lose is pain. Kersten K

Receiving Help With Many and Varied Health Issues

High blood pressure, digestive issues, tennis elbow, sciatica, stuck/congested chi, and issues that no western doctor could explain or was even interested in exploring. Zhihong has helped me with all these issues and i have made progress in a very short time. I second the other reviews : "in a quiet and respectful environment" and "I am so grateful for this affordable and highly effective treatment." Zhihong's personality is warm and welcoming and her knowledge and skills are exceptional.

My cold is so much better!

I have been receiving acupuncture from Zhihong for months now, I have had a very bad cold(congestion and cough) for weeks and Zhihong did a great job making me feel so much better. She also recommended an herb for my cough which is awesome. As always, very pleased and thankful!

Very helpful treatment! Highly recommend for all health issues.

Zhihong has helped me with recurring shoulder blade, neck, and trapezius pain. She has enabled me to continue my work without being distracted by pain. She has also helped very much with chronic bladder and kidney issues that other doctors had no answers for. I am very grateful for this affordable and highly effective treatment.

Professionalism and excellence

In a quiet and respectful environment health treatment is provided by professionals. I love this Community, the treatment worked very well on myself, my husband, and friends. I see improvement on pain relief from people coming in pain and leaving without it. She works with knowledge and kindness, I would recommend this Accupuncture Community to everybody.

A competent, gentle Health Provider

I saw Zhihong Shang only once as a patient suffering from sciatica, or Piriformis syndrome. Following procedures involving cupping and acupuncture, I was relieved of pain. I am grateful to the gentle and caring Zhihong Shang and will be seeing her again for further treatment.

Simply the best!

I have been treated by Dr. Hong on and off for the past few years and she is a true healer. I have had back pain, neck pain, arm and wrist pain. Problems sleeping. She has alleviated everything. Seek treatment with her before you resort to prescription treatment, a much healthier choice! I highly recommend Dr. Hong to all my friends and family.

Achilles tendonitis

After 6 months of pain with the Achilles tendon and physical therapy, a friend recommended acupuncture and also Zhihong Shang @ Clove Tree. After 2 treatments I could walk flexing my foot. Never doing acupuncture before, I would not hesitate to use this treatment again on other issues. She knows what she is doing and listens. thank you

Look forward to weekly appointments

I have an auto immune disease that leaves me feeling like I have pneumonia/flu from the time I wake up until bedtime. Western medicines have so many side effects that I started looking for alternative ways to feel better. This is the best I have found. I highly recommend this to anyone who is looking for a natural way to feel better.

Zhong has been able to decrease my pain level and boost my energy. I can honestly say that I look forward to my "doctors" appointment every week.

Review on services

Im extremely satisfied with the attentiveness and time Zhong gives me during my acupuncture treatment. She continuously checks on me, communicates with me- asks and delves for as much information as she can get on my medical concern. Each time I walk lout Im feeling certain I'm receiving top notch care. I highly recommend her.

awesomeness!

Zhihong Shang is not only caring, but also has the skills and knowledge in what she does! I started going here for my substance dependency and anxiety issues, and just after my first visit, I was very relaxed and craving subsided. Further, tension and pain around my neck and shoulder completely disappeared. I am grateful for the philosophy of community acupuncture and Zhihong Shang's work on me both physically and mentally. I highly recommend anyone to try and see the wonders she performs!

Community Acupuncture at Clove Tree

I have had acupuncture from other providers in the past who charge \$50-\$150 per session and they don't compare to the expert technique and compassionate, holistic care given by Zhihong Shang. so beneficial! It should be on your bucket list!

Acupuncture helped me with lack of energy and sleepless nights. It did wonders to me. I'm off all my prescribed medications and feel wonderful! I adore Zhihong! She was the first person to ask me so many details about my health. After 3 sessions I slept like a baby and my energy level went up. She treats people with so many different conditions. Everyone should try acupuncture at least once in their life to believe in what's been known for centuries. I HIGHLY recommend Zhihong!

It is great!

This has been a very good experience. It is the first time that I have had acupuncture and I highly recommended it. Painless and relaxing. The only treatment that helped me with pain. Zhihong does a great job and is very caring. From the time you walk through the door until you leave everything is so easy, no long waits or going from room to room but nothing being done. A new experience for me being in a medical office.

Being a practitioner in TCM myself, I have found Zhihong's skills very effective in treating a variety of symptoms I have been needing addressed. The sliding scale also allows me a financial flexibility so that I can receive the treatments I need, regularly. It just makes sense. Very grateful to have such a talented resource in our area that understands the meaning of health. Everyone needs to see her, even if it is just once, to see if it is for you or not.

Il had been diagnosed 3 years ago with painful osteoarthritis in the thumb joints . I am 57 years old and practice T'ai Chi Ch'uan, Tui Shou, Lau Ch'uan Shu, Wu Chun, sword form and Emei Qigong. The chronic pain was making it difficult for me to properly utilize my hands in these forms. After just one acupuncture session with you, when I left the office I had a good range of motion in both thumbs and am pain free for the first time in 3 years. I am very pleased with the results .
