

Curriculum Purchase List

New School Year. New Curriculum.

One of our favorite moments each year is unboxing fresh curriculum and setting up our learning spaces for the year ahead. Below you will find the curriculum links used at **Palmetto Scholars Leadership Academy**.

Placement Tests for New Students

Before purchasing any curriculum, **new students** must complete the Placement Tests for **Language Arts, Math, and Reading** found on the curriculum websites. After completing the tests, please order the level that matches your student's placement.

Returning Students

Returning students should order the **next level** after completing the **2025–2026 school year**.

Science & History

Science and History for **grades 1–6** are fully taught during in-person learning days. No additional curriculum purchase is required for these subjects.

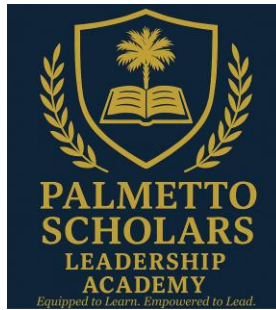

Grades K–4

Students in grades K–4 will attend classes based on the level recommended by their Placement Test results.

Please reach out if you have any questions.
