

Class of 2018 – 2019

Team Bike: Cynthia Faunce, Hancock County Public Library; Debra Cochran, Purdue Manufacturing Extension Partnership; Amanda Kirchner, Inskeep Ford; Marie Castetter, Hancock County Prosecutors Office; Angie Birdwell, Hancock Regional Hospital. Plan a bike rodeo to promote Greenfield as a bike-friendly community and to raise awareness of bicycle safety.

Team Landmark: Donna Butler, City of Greenfield; Mary Meek, Greenfield Banking Company; Ted Munden, Hancock County Sheriff's Department; Rhiannon Pope, Hancock Regional Hospital; Tara Carie, Hancock Regional Hospital. Document historic structures in Hancock County that were designed/built by influential architects. With the help of Greenfield Historic Landmarks, the team would research the history of the buildings and produce the information in an easy-to-use format.

Team Dental: Susan Wildey, Greenfield Banking Company; Angie Lyon, Hancock Hope House; Jeff Rasche, Greenfield Police Department; Linda Garrity, Hancock Regional Hospital. Establish oral hygiene stations at food banks and other locations where at-risk populations can be impacted. The stations would include a baggie containing toothpaste, a toothbrush and floss. The packet also would contain information about clinics and advice on good oral hygiene. Project would seek out partners to promote and distribute the packets.

Team Main Street: Brian Dowden, NineStar Connect; Kim Crist, Hancock Regional Hospital; Rebecca Zapf, Elanco; Dina Davis, Hancock Regional Hospital. Research and develop an app that highlights amenities in Greenfield and Hancock County. This would cater to visitors and also local people who are interested in learning more about their community. Other communities have similar apps that could serve as a template.

Team Green: Allyson Smith, Hancock Regional Hospital; Sunshine Nichols, Hancock Regional Hospital; Katie Ottinger, Hancock County Community Foundation; Amy Sutton, Greenfield-Central School Corporation; Jeff Inskeep, Inskeep Ford. GoGreen Week: Partner with schools to promote recycling and conservation of resources
