As a valued prospective board member, your leadership and commitment are meaningful. One powerful way non-profit board members support LHC is through a personal annual contribution. While not mandatory, we *highly encourage* a gift that is meaningful to you — many board members give \$100 annually at our June meeting. Your generosity assists in sustaining programming for LHC classes now, and in the future. Leadership Hancock County is proud to have a board comprised of members serving through time, talent, and treasure.

I am committed to serving on the Leadership Hancock County board by attending monthly board meetings, fulfilling my responsibilities as a day chair, and actively contributing to the work of at least one committee.
