CLIENT FREQUENTLY ASKED QUESTIONS

Do you use subcontractors, or are your painters full-time in-house employees?

We never outsource or subcontract painting. We believe quality comes from consistency, which is why your project is completed from start to finish exclusively by our permanent, full-time, trained in-house painters to ensure meticulous craftsmanship and direct accountability.

How do you calculate estimates, and do you offer promotional discounts?

Our detailed, itemized quotes are 100% free with no obligation. To ensure complete fairness to every client, we do not use artificial markups or offer promotional discounts. Our pricing is straightforward & honestly reflects the true cost of premium materials and dedicated in-house labor.

Do I need to be home while you work?

Not at all. Most homeowners are off-site while we work. We just need access to the space and any supplies we discussed, and we'll notify you the moment we're done.

What paint brands do you use? Can I pick custom colors?

We primarily recommend Sherwin-Williams for exceptional durability and coverage, though we gladly accommodate other preferred brands upon request. We also provide precise, custom color matching for any paint swatch, manufacturer code, or designer palette.

How long does a project take?

Timelines vary by scope, but as a general guide:

- Interior rooms run 1-2 days,
- Full interior homes 3-8 days,
- Exteriors 2-6 days, and
- Cabinet refinishing 1-3 days on-site with doors taking up to a week at the shop.

You'll get a specific timeline at your estimate.

Can you recommend other trusted local contractors?

Yes. If your project requires additional services outside our scope - such as plumbing, electrical, roofing, or specialized remodeling -we actively collaborate with trusted local professionals through **Blue Collar Connect** to connect you with vetted, dependable local businesses.
