FASHION

DESIGN

Fashion being an ever evolving industry, we work closely with both design houses and creative artists to bring Fashion Forward styles to our customers.

SOURCING

Ethical sourcing is key to our business; be it fabric or trims. We ensure the good garment practices are in place and regulated.

PRODUCT DEVELOPMENT

Understanding the unique complications in the production process ensures that we only develop styles as resourcefully and cost efficiently as possible.

TECHNICAL ASSISTANCE

Our in-house technical expertise allow us to look at production problems and think out of the box solutions, to maintain our production delivery and quality.

ETHICAL MANUFACTURING

Our production units are industry leaders in the field of apparel manufacturing. They have the necessary pre-requisite ethical compliance certifications and have been serving international brand for over 25+ years.

VALUE ADDITION

We work closely with a brand's buying and design teams to ensure that the finalized garments, work in-line with the seasonal style direction. This helps to ensure a complete experience for their end customer.
