

County Reports

Counties are the core geography for ALICE data: They reveal variations often masked by statewide averages, and the data is reported regularly and reliably.

ALICE IN WARREN COUNTY

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mployed — households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county. While conditions have improved for some households, many continue to struggle, especially as wages fail to keep pace with the rising cost of household essentials (housing, child care, food, transportation, health care, and a basic smartphone plan). Households below the ALICE Threshold — ALICE households plus those in poverty — can't afford the essentials.

Financial Hardship is Not Equally Distributed

By total number, groups with the largest population of households below the ALICE Threshold tend to also be in the largest demographic groups. However, when looking at the proportion of each group that is below the ALICE Threshold, it is clear that some groups are more likely to be ALICE than others.

The Labor Landscape is Challenging for ALICE Workers

A small portion of adults (16 years and older) in Illinois were unemployed and a large number were working in 2023. However, a substantial portion of both full- and part-time workers are paid by the hour; these workers are more likely to have fluctuations in income and less likely to receive benefits.
