

ENVIRONMENTAL POLICY

JG Landscaping is a landscaping business which operates throughout the U.K.

JG Landscaping are prepared to demonstrate its commitment to achieving high standards of environmental practice and consideration to our neighbours by the implementation of the best practices and principles to achieve high environmental standards at all Company sites and facilities.

We consider the economic success of the company and a healthy environment are closely linked and that ecological protection and sustainable development are collective responsibilities in which the government, businesses, individuals and communities have a role to play.

It is the policy of JG Landscaping to conduct its business in a manner which protects the environment by:

- Meeting the requirement of all relevant legislation.
- Seeking to ensure that the requirements of environmental legislation are based on sound scientific principle and cost effective technology.
- Minimising adverse environmental aspects and preventing pollution throughout all areas of our business.

- JG Landscaping is conscious the carbon footprint of landscaping is getting seriously out of control. We try our utmost to minimise these factors such as machinery, cement and plastic waste where possible.

- It is our intention to conserve resources by:- a. minimising our waste and pollution. b. using energy and fuel efficiently. c. protecting and where possible improving natural habitats. d. considering the environmental implication of all goods and services we intend to purchase and wherever practical, select those that are least damaging to the environment. e. to improve continually our overall environmental performance.

- Develop and maintain contact with other landscaping companies in order to keep abreast of technological advances in environmental protection.
- Continuously receiving and improving

environmental performance by modifying working practices and introducing appropriate technology. • Promoting customer and employee understanding of environmental issues. • Ensuring that all employees are aware of their individual responsibilities in the implementation of this environmental policy. • Assisting Local Authorities in achieving their targets. • Making the policy available to the public.

JG Landscaping will do everything in its power to ensure that our activities comply with the standard and procedures identified. The procedures will be continually reviewed to ensure that they remain relevant.

JG Landscaping are committed to maintaining open and full consultation on environmental performance with the appropriate regulatory bodies, principle contractors, the general public and site owners.
