4	A. I had a baby.	4	A. No, I didn't. I wanted to be in the field.

14	Q. Oh, okay, so Newbanks offered you more money.	14	A. They had approximately 30 buildings that they

16	Q. That's a valid reason.	16	Q. Oh, okay.
17	A. Yes.	17	A. So I was in the construction division.
18	Q. Prior to IVI Construction Consulting, where did	18	Q. I see. What did you do there?

10	I might have said that.	10	Q. Which one was that?
11	Q. Is that different than the type of design work	11	A. None of them.
12	you were doing at KGD?	12	Q. So did we miss it in the chronology? Well,
13	A. Yes.	13	let's ask it a different way. What Canyon-owned entities

1	Q. Is there a situation here like in Packard	<sup>1</sup> MR. MILLER: No, I'm talking about doing the

5	A. There's some small scopes of work, yeah.	<sup>5</sup> Q. Would you agree with me that it would be
6	Q. Like, can you name one?	<sup>6</sup> appropriate to competitively bid that as well as just a
7	A. I can't really think of any at the moment.	7 particular sub for metals, for example?
8	Q. If not the bidder, can you think of the work	<sup>8</sup> MR. DOLAN: Just object to the form. Go ahead.

12	in the area that actually provide that service, that would	<sup>12</sup> A. I'm sorry, can you repeat the question?
13	be a situation. Like metal is usually one of those areas.	<sup>13</sup> Q. Yes. Someone has drawings completed.
14	Q. Metal?	<sup>14</sup> A. Yes.
15	A. Yes. Miscellaneous metals, decorative metal.	<sup>15</sup> Q. They want to hire a contractor.
16	Welding.	<sup>16</sup> A. Yes.
17	Q. Does it depend on amount of money at issue, is	Q. Would they ever ask multiple contractors to bid
18	that one OF the factors you would consider appropriately to	<sup>18</sup> on the entire scope of work?
19	bid or not competitively bid?	<sup>19</sup> A. Would they ever? Yes, there's instances where
20	A. There's multiple variables.	<sup>20</sup> they would and then there's instances where they wouldn't.
21	Q. What are those variables?	21 Q. In which situations would you, as a

25	Q. All things being equal, if everything was	A. Well, see, the what contract are you talking

3	a particular bid?	<sup>3</sup> A. So it's bid within the divisions. Because the
4	A. The industry standard is three.	4 actual contractor that oversees all of it isn't actually
5	Q. Three?	5 performing the work. It's all through subs. So you would
6	A. Mm-hmm.	<ul> <li>bid all those subs out multiply.</li> </ul>
7	Q. Why is that something you would suggest?	<sup>7</sup> So to say not to bid the GC contract,
8	A. To make sure that the documentation is clear	<sup>8</sup> ultimately what happens is if you were to do the GC
9	that's being bid, and to see what the prices are.	<sup>9</sup> contract, the same subs are going to be called because
10	Q. So by doing it, you could potentially get	<sup>10</sup> there's only a certain amount of subs in any given area. So
11	better pricing.	<sup>11</sup> more than likely, if you had three GCs, those three GCs are
12	A. Yes.	<sup>12</sup> probably going to the same subs at some point because
13	Q. Okay, that's a good reason.	<sup>13</sup> there's only a certain pool of subs available in that area.
14	When something has drawings completed and wants	<sup>14</sup> Q. Okay, but you would agree with me that it makes

2	Q. First. I mean, is that the first thing that	2	Q. Okay, what's frost?
3	would be installed in a multiuse project like Packard	3	A. When the ground freezes and thaws.
4	Square?	4	Q. Is there a situation where when the ground
5	A. As soon as you come into the site?	5	freezes and thaws, that construction work can't be performed
6	Q. Yes.	6	on a building in the midwest?
7	A. You have to demo whatever's there first.	7	A. Repeat the question.
8	Q. I'm talking about as construction goes.	8	Q. Yes. Is there a situation because the ground
9	Parking lots are first?	9	is freezing and thawing that construction work can't be
10	A. No. You would build the building first.	10	performed in the midwest?
11	Q. How would emergency vehicles get access without	11	A. Well, when the ground is frozen it's hard to
12	parking lots and roads?	12	dig.
13	A. They wouldn't.	13	Q. What if it's already been dug, what about other
14	Q. So what happens if there's a fire?	14	construction, can't everything else be done during that
15	A. What's your I don't understand your	15	time?
16	question. You asked me if that would be the first thing you	16	A. Everything is in broad scope. So there's
17	do when you come on a site? You have to build a building	17	certain trades that could be performed, yes.
18	first to have a parking lot around it. So you would build	18	Q. So what trades couldn't be performed while the
19	the building you would do demo if there's demo,	19	ground is freezing and thawing?
20	obviously. Then you would build the building. Then you	20	A. Utilities. Utility work you wouldn't normally
21	would to have put in some type of means for the site for	21	do. It's not that it can't be done. It's just that it's
22	vehicles to drive on.	22	not commonly done.
23	Q. After the building is built?	23	Q. When you're referring to utility work, you're
24	A. Yes.	24	talking about underground utility work?
25	Q. So if in the midst of construction there were a	25	A. Yes.
	Page 87		Page 89
1	fire, the building would just burn to the ground because	1	Q. But if there's electrical work to be performed
2	there would be no way to access it for fire trucks? Because	2	in the building, that could certainly be done.
3	there are no roads?	3	A. Yes.
4	A. Is the building built?	4	Q. So what else can't be done?
5	Q. No, no. In the midst of building the building.	5	A. When the ground is frozen?
6	The building is not completed.	6	Q. Because of are you not familiar with the
7	A. Okay. So there's fire extinguishers.	7	phrase "frost laws" in Michigan?
8	Q. Fire extinguishers.	8	A. No.
9	A. Mm-hmm.	9	Q. You're not, okay. So is there anything that
10	Q. What if there's nobody on the site when the	10	you're aware of that can't be worked on in the winter except
11	building starts to burn? How would the fire trucks get	11	for digging into frozen ground?
12	there?	12	A. In the winter, what can't you do. You can't
13	A. You would have to protect the site to keep	13	calk, can't do mortar anything that's subject to
14	people from going into the site.	14	temperature.
15	Q. Wouldn't you have to build temporary roads to	15	Q. So let's talk about construction. Is there a
16	allow the fire trucks to get back there if they needed to or	16	benefit to be had for construction that moves faster versus
17	other emergency vehicles?	17	construction that moves more slowly?
18	A. Yes. You need a base for heavy vehicles to	18	A. Yes, you occupy it faster.
19	drive on. But there's usually construction rip rap at the	19	Q. What other savings are there?
20	entrances.	20	A. Labor, general conditions.

- A. Labor, general conditions.
- Q. Insurance?

- A. Well, my understanding of insurance is that you
- buy it -- it doesn't matter the time that you buy it, as
- long as buy it at the onset of the construction. So whether
- you buy 18 months or 24 months, it's the same. That's my

2	Q. Interest on money being lent to build the	<sup>2</sup> Q. The budgets no, the budgets that were

4	A. Yes.	4 A. I've seen budgets, multiple budgets, yes.
5	Q. That would certainly be saved, sure. And you	<sup>5</sup> Q. Okay, when you've reviewed those budgets, have
6	said general conditions and construction fees would probably	6 there been bids attached to them?

8	A. General conditions I said.	<ul> <li><sup>8</sup> have a sample of what budget you're referring to?</li> </ul>
9	Q. Not construction fees?	<ul> <li>9 Q. No, because the budgets I have don't have bids</li> </ul>
10	A. No, that's not what I said.	<sup>10</sup> attached to them. I'm wondering if the bids you have
11	Q. Okay, would those be reduced?	11 A. No.
12	A. Not normally, no.	12 Q. You've never seen the bids themselves?
13	-	
14	Q. Have you reviewed a construction budget?	
15	A. In my lifetime, yes.	Q. But you to boon budgete that have had blas
	Q. What types of things are normally included in	
16	such a budget?	16 A. No. An actual budget with bids, no.
17	A. Hard costs, owner items, materials, labor.	17 Q. So what does your budget look like that you've
18	Q. Would you expect to see support for the numbers	18 seen?
19	that are on the budget page, like bids and attachments?	<sup>19</sup> A. It's on an AIA form in G702. And it lists the
20	A. Which page? I'm sorry.	<sup>20</sup> trades and the divisions and the costs.
21	Q. Okay, so if you look at a budget and the budget	21 Q. So you're relying on whatever the contractor of
22	has numbers on it and says we're going to spend \$500,000 for	that form has provided to you, but you haven't had the
23	this, 30,000 for this, \$2 million for this, when looking at	<sup>23</sup> opportunity to review to make sure that the numbers that
24	the budget as a construction consultant, would you expect to	<sup>24</sup> went into that form were supported by actual bids.
25	see the support for those bid numbers, or do you just take	A. Well, it ultimately comes back it's

2	A. It depends on what the budget was presented	<sup>2</sup> buy it out. That's a there's an initial budget and then
3	for. If it's an initial estimate, no, it wouldn't.	<sup>3</sup> it develops and then as they get bids, that gets formalized.
4	Q. Well, I'm presuming my suggestion is what	<sup>4</sup> So that's why I'm asking you. I'm not clear on which budget
5	I'm talking about is you have a budget created, it says this	<sup>5</sup> you're referring to.
6	is what we're going to do to build this building.	<sup>6</sup> Q. Well, in the fall of last year, 2017
7	A. Mm-hmm.	7 A. '17, okay.
8	Q. And it's going to cost X amount of dollars.	<sup>8</sup> Q there was a budget presented to the court
9	A. Right.	<sup>9</sup> for the costs it would take to finish Packard Square. Do
10	Q. Wouldn't it be appropriate to have the bids	<sup>10</sup> you recall reviewing such a budget?
11	that support the numbers or, as a construction consultant,	11 A. Is this the GMP budget?
12	would you just be expected to assume that the numbers are	<sup>12</sup> Q. I believe it is.
13	accurate on the budget itself?	<sup>13</sup> A. Because there's multiple budgets here. And can
14	A. No, you wouldn't have bids at that stage. Not	<sup>14</sup> I go back on something that you had inquired about with
15	at early stage you wouldn't have that. You wouldn't have	<sup>15</sup> regards to this?
16	bids available for that.	<sup>16</sup> MR. DOLAN: When you say "this," you gotta say
17	Q. Why does it have to be at an early stage.	<sup>17</sup> the number.
18	A. You have to explain to me which budget you're	<sup>18</sup> A. Number 57. You had inquired about it. You
19	talking about, because through the life cycle of a	<sup>19</sup> realize this was the bridge amount, the \$9.1 million. This

	created. I'm not clear on which budget you're asking.	
21	Q. In this case, for example, there have been

22	multiple budgets presented to the court	23 actually from there's an incommence and interview

2	So this was actually the words of Sterling that I cut and	<sup>2</sup> Q. Was that something that were you hired to

4	Q. Who's the insurance person?	4 A. No.
5	A. Sterling. Sterling Insurance. So I just	<sup>5</sup> Q. So that's beyond what you're supposed to be
6	wanted to clarify that to you.	<sup>6</sup> doing.
7	Q. Okay, but I'm talking about the new receiver	7 A. Yes.
8	loan	8 Q. That's what I didn't understand.
9	A. Which is different from this one.	<ul> <li>All right, is there a standard in the industry</li> </ul>
10	Q. Right. I'm done with that one.	<sup>10</sup> of what a reasonable cost overrun would be?
11	A. Okay. I just wasn't sure it was clear.	11 A. No.
12		
	Q. That's fine. No, I'm talking about the	
13	receiver loan. There was a budget that was supplied to the	<sup>13</sup> overrun? Is it a dollar? How is that defined?
14	court that asked for a significant sum of additional	A. A cost overrun is usually money, yes.
15	money	<sup>15</sup> Q. But how much money?
16	A. Yes.	A. It depends on the project and the position of
17	Q to finish the building.	<sup>17</sup> it. Every project is unique in its own situation.
18	A. Yes.	<sup>18</sup> Q. So in this project, for example, which is a
19	Q. And my question to you is, did you review the	<sup>19</sup> \$53 million project, what would be in your mind a reasonable
20	bids that went into that request based on the budget that	<sup>20</sup> or appropriate, if there is one, cost overrun that would be
21	was presented to the court?	<sup>21</sup> expected or acceptable?
22	A. No, I did not review each and every bid, no.	A. It's not possible to answer that question.
23	Q. Okay, so did you just did you at all review	<sup>23</sup> Q. Why not?
24	the bid itself? I'm sorry, the budget, did you review the	A. Because it really depends on why it went over
25	budget itself?	<sup>25</sup> budget and what the reasons were. If the same contractor is
	Page 95	Page 97
1	A. I saw the budget, yes.	1 staying in, if the same subs are staying I mean, there's
2	Q. Did you think that the budget was high, low,	<sup>2</sup> just so many different variables that it's not there's
3	appropriate for the type of work that needed to be finished?	<sup>3</sup> not any set amount that you can expect. You set it up for 5
4	A. I didn't think of it either way. It's an	4 percent contingency. That's what you expect your overruns

3	A. Okay.	3	
4	Q. So what were you asked to do let me ask it a	4	
5	different way. Were you asked to do something different on	5	
6	that date than Janine was asked to do that day?	6	
7	A. I don't know what Janine was asked to do. I	7	gov
8	know that I was asked to visit the site and see what was	8	wo
9	going on.	9	
10	Q. Okay, did you create a report?	10	
11	A. Yes, I did.	11	
12	Q. And to whom did you send the report?	12	
13	A. I think it was to you. I think it was to Ben	13	
14	Dolan.	14	
15	Q. Why would you send a report to Ben Dolan?	15	
16	A. Because I wasn't contracting with anybody at	16	
17	that point. And that's who I sent it to.	17	
18	Q. When did you send that report to Ben Dolan?	18	cre
19	A. October.	19	
20	Q. October.	20	
21	A. Yes.	21	
22	Q. You were there on September 16th and you sent a	22	
23	report to Mr. Dolan in October.	23	
24	A. Yes.	24	
25	Q. Did you make notes when you were there on	25	pho

	3	MR. DOLAN: Because it's work product.
	4	MR. MILLER: When did you retain
n	5	Q. Ms. Van Curen, when did Mr. Dolan retain you?
	6	MR. DOLAN: It doesn't matter. Work product is
	7	governed by attorney-client privilege. It's governed by the
	8	work product doctrine. It's different.
	9	MR. MILLER: I'm asking the question.
	10	MR. DOLAN: Go ahead.
	11	Q. When did Mr. Dolan or his firm retain you?
	12	A. When he asked me for the report.
	13	Q. And he paid you?
	14	A. Did he no, he didn't pay me directly.
	15	Q. Did you sign a retainer agreement with him?
	16	A. No.
	17	Q. Okay, so just so we're crystal clear, you
	18	created a report.
	19	A. Yes.
	20	Q. And you think you created it in October.
	21	A. Yes.
а	22	Q. So it was weeks after you were there.
	23	A. Yes.
	24	Q. And you didn't have notes. It was based on the
	25	photos.

	Page 110		Page 112
1	A. It wasn't based only on the site visit. It was	1	Q. Right.
2	based on the documentation that Packard Square provided to	2	A. The structure was up, there was very little
3	me. So it was based on the contracts that were in place	3	activity going on. There was maybe 20, 25 people working.
4	with Quandel. It was all work that was in place and	4	Quandel was there babysitting the project. There was panels

7	Q. When is the first time you communicated with	7	time, I don't recall. There was some mechanical MEP roughs

9	A. I don't recall.	9	Q. Do you have an opinion at that time as to what
10	Q. Was it within days of being on the site? Or	10	percent of the project was complete as of September 15th?
11	was it weeks?	11	A. Yes.
12	A. I don't recall.	12	Q. What is that?
13	Q. What was completed at the site at the time of	13	A. That project with that current contractor and
14	that visit?	14	the scope, because that plays a role into percent complete,
15	A. What was completed at the site? The	15	was probably at 55, 60 percent at best.
16	superstructure was up. There was no particular scope that	16	Q. Did you have an opportunity to make that type

18	Q. So nothing was completed as far as you're	18	trades? Like if I said what was the electrical as of
19	concerned.	19	September 15th as far as percent complete, do you have an
20	A. No, it was a construction site ongoing.	20	opinion as to that?
21	Q. Ongoing construction. Okay, did you assess the	21	A. You wouldn't do that. You would do month end.
22	status of the project at that point?	22	And that was based on the applications for payment. That's
23	A. During the walk-through?	23	how you would do the electrical part of it.
24	Q. Mm-hmm.	24	Q. But you weren't there at the month end, were
25	A. No.	25	you? You were only there the month middle.

	Page 111		Page 113
1	Q. What were you looking for if not the status of	1	A. After, right. So it would be projected through
2	the project?	2	August 31st for 9/15.
3	A. Well, you have to walk through the whole job	3	Q. Okay. So what was
4	and you have to put it together. You don't just determine	4	A. It would be based on the applications for
5	right out in the field while you're standing there what	5	payment that were submitted.
6	completion it is.	6	Q. And you reviewed those?
7	Q. When did you, if ever, do that and come to a	7	A. I did.
8	conclusion about what the status was at that point in time?	8	Q. So do you recall what the status was of fire
9	A. October.	9	suppression at that time?
10	Q. So in October you went back and reviewed it?	10	A. I don't recall.
11	A. Yes.	11	Q. Do you have it in your notes or report
12	Q. So going back a month in time, did you then	12	somewhere?
13	come to backdate in your mind what was the status back in	13	A. It's part of the application process. So it
14	September when you were there?	14	would be in the draw paperwork.
15	A. Ask the question again.	15	Q. That was presented by Quandel and the
16	Q. Yes. In October you just said you were able to	16	developer

19	Q at the point in time you were there in	19	A. By Craig, yes.
20	September.	20	Q. Was the building substantially roughed in when
21	A. Mm-hmm.	21	you were there in September?
22	Q. What was it? What was the status in September	22	A. No.
23	when you were there after having reviewed the items in	23	Q. It was not. To what extent do you think it was
24	October?	24	roughed in? The fire suppression that is.
25	A. It was a construction project underway.	25	A. Fire suppression or mechanical rough-in?

But you were not involved in any of that, you that was submitted as part of that process. 12 12 didn't review their bid, you didn't review their contract, Q. 5	Q. So what is the actual rec cost?	5	A. But it was no longer in Quandel's budget so it

15	Q. Correct?	15	Q. Where is the column that shows the million

17	Q. And you showed the Quandel budget as being	17	A. It's right there. Flooring and tile.

22	Q. So on October 2016 you showed a \$1.5 million	22	Q. 6.

24	A. Where do you see that?	24	Q. This is Quandel's chart.
25	Q. I'm subtracting actual rec cost from Quandel	25	A. Right.

3	Q. It's a million and a half difference, right?	3	A. Certain scopes, right. But millwork is not
4	A. Yes. But these are owner related items.	4	here because Quandel hadn't released it yet.
5	Q. I'm sorry?	5	Q. But you didn't put anything in for millwork in
6	A. You're mixing up Quandel budget and owner	6	the budget, so it looks like when you look at the second

17	Q. Right, but is that if you're not you and you	17	A. This doesn't include installation. And Quandel

7	Q. Right, I understand.	7 A. Yes.
8	A. It's a snapshot of where you're at at that	<sup>8</sup> Q. And so the figure that sets forth as owner

15	Q. Right, but the Quandel budget had these items	<ul> <li>because some of the figures that might have been in your</li> </ul>

19	Quandel. Quandel still had there was another chart that	<sup>19</sup> in their scope. It was part of their GMP. The only way to

3	My concern is that the gap here doesn't	<sup>3</sup> technically move into an owner budget. But there's other

8	you're not looking at all the documents that go with it.	8 predicated on what contractually the owner was buying and
9	Q. Because that's what was allegedly spent to	<sup>9</sup> purchasing and purchase orders that they had in place for

11	A. No, that was what was paid to date.	<sup>11</sup> process here where the contractor has to allow it.
12	Q. Right. Spent, paid, same thing. Paid to date.	<sup>12</sup> Q. Right, but again, for the unsophisticated,
13	A. Right.	13 which I will freely admit that I am
14	Q. But it looks like that because the money is not	14A. Okay, fair enough.
15	in the Quandel budget but it's showing up on the rec cost,	<sup>15</sup> Q it looks like when you look at Exhibit 43,
16	that there's a million and a half dollars not accounted for.	that this is not an actual a true and accurate statement
17	It looks like a million and a half dollar overrun.	<sup>17</sup> of the extent of the over alleged overrun because the

3	I could not list every single change order here	<sup>3</sup> A. I'm not doing it now.
4	because there was just too many various trades with it. So	4 Q. Did you review O'Brien's budgets before they

7	Q. But I don't see that explained in your Exhibit	7 A. I think you did. I don't know if I recall.
8	78 though. That's where my confusion lies. It's not	<sup>8</sup> Q. The bids weren't attached I think is what you
9		
10	explained there. I don't see \$3 million in change orders. A. Because this is an owner direct hard cost	
11	template. It's one piece of 20 pieces. It's one part of	
12	the equation. This is the summary of it.	12 MR. DOLAN: Do you mean bids or budget?
13	Q. Do you know what Quandel's general conditions	<sup>13</sup> Q. Sorry. In the budgets.
14	and fee were?	<sup>14</sup> MR. DOLAN: That's what I thought you meant.
15	A. Off the top of my head I don't know.	<sup>15</sup> Q. For settlements with prior subcontractors?
16	Q. Well, according let's look at Exhibit 6.	<sup>16</sup> A. I don't believe so.
17	While you're looking, do you know what the other 20 pieces	<sup>17</sup> Q. How about were there money in the budgets for
18	are?	18 legal fees?
19	A. Yeah, it's a \$35 million budget. What I'm	<sup>19</sup> A. In O'Brien's
20	saying is 4 million is only one part of a bigger picture, of	<sup>20</sup> Q. Budgets.
21	\$35 million. So it's the difference between 35 and	A. I mean, there's always some type of legal fees
22	4 million. That's what the other piece is.	<sup>22</sup> included in general conditions.
23	Q. I guess I asked it badly. I'm asking where are	<sup>23</sup> Q. As we talked about earlier, and I don't want to

If you had been aware of the fact that the developer had a new contractor in place who projected that it would finish the project by March of 2017, would that have changed your opinion in your ultimate declaration? A. No.	Page 177  A. The work's getting done.  Q. At an appropriate time rate?  A. It's been performed in phases. So it's not  crystal cut pattern where it would be two years or X amount.  It's been done in phases and it's developed along the way.  Q. Well, what's taking so long?  A. I just said that it's been getting done in  phases, in sequences, so it's different. It's not straight construction. It's not a straight construction timeline anymore.  Q. Well, why isn't it?  A. Because it had to go through court approvals.  Q. So? What had to go through court approvals?  A. The budget. It went from 2 million, then it was 9, then there was a GMP. There was stages of a budget approval.

- A. No. Q. And do you have any idea how much it would cost to make sure that the fence and gates were locked? A. I do not recall at this time, no. Q. So what did the \$2.4 million get spent on? A. There was work -- there was other work that was

- 12 solely winterization. It was winterization, security,
- 13 making sure the site was secure. There was some repairs to

3	A. Yup.	3	A. I don't recall.
4	Q. What did Albanelli do for \$391,000?	4	Q. Well, in other words, I guess I'll try to ask

22	A. I don't know for sure.	22	A. No.
23	Q. So I'm sorry, where were you next? You talked	23	Q. Who does that?

17	A. Yes.	17	Q. I know, but I'm talking about winterization
18	Q. And was it completed before the winter began?	18	right now.
19	A. Scope was completed by March.	19	A. Okay.
20	Q. So that's a no to my question. Correct?	20	Q. So there was silt fencing around the site to

19	A. They installed shoring in the garage.	<sup>19</sup> Q. That's not a hard cost, right?	
20	Q. What did that have to do with something	A. It depends on how you look at it.
