

### A Soldier's TESTIMONY (JESUS in my dream) Part 3.

The pain that was transferred to me from the Uber driver on June 25, 2024 had lasted that Thursday for about 30 minutes. After it left my back, I felt fine that evening and the next day. Then on Saturday just two days later, the pain in my entire back had returned and it was so excruciating.

At the moment it returned I quickly tried to review in my head what I had done or not done, to figure out why it had returned. Then I realized that there was no prayer, inner healing or deliverance done on myself, before or after my prayer and blessing that was given to the Uber driver or for myself on that same day just later, when the pain started on me then after 30 minutes had left. I also did not seal and ask for protection from the Holy Spirit.

Realizing this just 2 days after that first painful attack where I prayed and blessed the driver, I immediately went to my bedroom and layed down on the bed. I got as comfortable as I could and had to actually be face down, when I began praying to attempt to ease the pain. I went into an inner healing type prayer, naming demons that might be tormenting me and in Jesus' name I began canceling all the rights and assignments that they might have. I also closed all the locations called windows and doors, that may have allowed the demons to enter and I rebuked those demons and asked the Holy Spirit to light a fire on them, to blind their eyes and to confuse their language.

I then asked that Angels be sent to torment them to make them leave my vessel and in Jesus' name I commanded that Satan and all his principalities, spirits, demons and minions be bound and go straight to the pit. I gave them instructions to exit my vessel through my nose, mouth, eyes and the ears. Including the other orifice.

In Jesus' name I then commanded that they never return or bring other demons back with them and I asked the Holy Spirit to use His Angels to enforce this and to torment the demons to make them leave. I then asked that a wall of fire be put around me to protect me afterwards.

This was the first time that I had done an inner healing type deliverance prayer on myself and when I finished, all the pain immediately vanished from me. Now that was on Saturday and Sunday at church I felt great and so happy, I could not stop talking about what had happened.

It is now Monday and I am writing this Testimony to share with everyone that Christians who are tormented with pain or illness can also help themselves and I am living proof of that. However, to do this there are rules to follow. We Believers should try to live sin clean. We need to try to repent right away or at least before turning in for the night. I believe that God would like us to cleanse ourselves every evening, so that we can start fresh the next day and I hope and pray that all Christians understand that Satan focuses more on us Believers as we are his biggest threat.

Asking for forgiveness is also important and learning to forgive ourselves and others too. There can be no unforgiveness and if there is, the unforgiveness should be taken care of right away.

I myself had to do to this very thing and I wrote about it in one of my other Testimonies posted here on this website, After checking in for 10 days to detox, the Holy Spirit for eight days helped me remember by giving me names and images of people that I needed to forgive or pray for. Thus, I prayed for everyone, forgave them, forgave myself and asked for forgiveness. I also repented for my actions with each person and renounced the sins. Then after doing this, God said audibly to me "I am proud of you."

Right now and as I write this, there is music playing in my home. It's a

Christian chant I found online that plays up to 8 hours and the Holy Spirit is at the keyboard with me to get this message out.

Praise God.
