

At this time Isleta Health Center is testing, **BY APPOINTMENT ONLY.**

- Symptomatic people displaying the COVID-19 symptoms of fever or chills, cough, shortness of breath, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, and/or diarrhea; at the discretion of the treating provider;
- Asymptomatic people **who have been formally identified by health officials** as being close contacts or household members of people in their infectious period who have already tested positive for the coronavirus;
- Asymptomatic people who live or work in congregate settings such as long-term care facilities and group homes;
- Asymptomatic people being released from detention centers, rehabilitation centers, or other similar facilities;
- Patients who are scheduled for surgery and who have a written doctor's order to get tested before the procedure.

Isleta Health Center is not testing:

- Asymptomatic people not meeting one of the criteria above.
- Employees recommended or mandated by their employer to get tested due to possible exposure or as a requirement to return to work.
- Contacts of a contact.

Alternative testing sites include:
