

ProCare Risk Consults - Pricing Guide

Keep in mind this is just a pricing guide to give you ranges of what you might expect for costs. You will be provided an exact quote once we have our free 10-minute phone consult and learn what your specific businesses needs are. 1-800-430-6414

The primary factor in our pricing is the size of your business and how many employees you have. The second biggest factor is your industry, for example, retail might fall at the lower end of the range where construction might come in at the higher end. How many locations you have is another important factor.
