

Perfectly designed for use in Offices, Showrooms, Meeting Rooms, Restaurants, Hotels, Shops, Classrooms, Corridors, Communal Spaces, Kitchens, and more.

Energy Saving LED Tube to use less energy than fluorescent tube fittings.

High Brightness and quality light output, high efficiency, easy on the eye and flicker-free colour rendering with even light dispersion, designed for minimal heat dispersion and wide beam angle for shadow-free coverage. The LED battens have an inbuilt driver and switch on instantly without noise or flickering.
