BOTOX/Dysport (30-45mins)

By Area or Unit

Average duration 3-4 months

Neurotoxins are used to relax the muscles that cause wrinkles. The most common areas treated are 1- Glabella (Frown "11" lines) 2- Forehead 3- Crows Feet (smile lines around the eyes). The amount of units needed will be determined after consultation with Aesthetic injectors. Follow up appointments must be done within 14 days of injection.

We offer both PER UNIT and PER AREA pricing, to be determined by injector after consultation:

PER AREA PRICING- Recommended. Unlimited units to achieve desired treatment effects. 14 day touch ups included at no additional cost.

PER UNIT PRICING: for those who need a small amount of units ("Baby Botox"), or for small areas such as bunny (nose) lines. If you received neurotoxin injections within the last 90-120 days from another injector, choose this option. Applies to follow ups from Specials/Promo pricing.

BOTOX/Dysport- Per AREA Pricing (Recommended)

We charge by the AREA not the unit. We use As many units as needed to get the most effective treatment results. Comes with a complimentary touch up within 14 days of injection.

Platelet-Rich Plasma (PRP) Therapy

Using platelet rich plasma (the body's natural filler) filled with growth factors and stem cells that regenerates tissue and builds collagen. A small amount of blood is drawn, placed in a sterile tube and centrifuged to separate the platelet rich plasma.

Used for:

PRP Facial Aesthetic Skin Rejuvenation

\$399

Can be injected like filler for skin rejuvenation into multiple areas on face and body (under eye circles/hollowness). This can be used independently, or alongside Botox and Filler injections. Facial scars, such as acne scars, wrinkles, and deep body lines, and cellulite are examples of cosmetic issues that PRP may be able to assist with.

PRP Hair Restoration

\$399/treatment

Improves thinning/hair loss by stimulating new hair follicle growth and increasing fullness. Also useful for newly implanted hair follicles by stimulating active growth cycle. 2-3 treatments spaced 4-6 weeks apart. Physician consultation required.

PRP Cellulite and Stretch Marks w/microneedling

\$399 and up/treatment

Reduces appearance of cellulite or stretch marks. Evens skin lines to create smooth, soft skin. Generally done with microneedling. Requires 2-3 treatments spaced 4-6 weeks apart.

The Nuvoyou Lift - PDO Threads Lift

\$200 per thread

Nonsurgical face lift lasting 1-3 years

Using absorbable Novathreads FDA approved PDO (polydioxanone) threads made in the USA. The procedure involves implantation of fine, absorbable PDO Threads (similar to those used in medical suturing) into the subcutaneous layer of the skin using small needles. Numbing is used with a cannula prior to thread placement. Lasts an average of 12 months. Threads can last 1-3 years and absorb/dissolve over time leaving a foundation of new collagen. They are strategically placed in many areas like the mid/lower face, jowls/jawline, browlift. This does not replicate the results of a surgical facelift. But does leave the face looking refreshed and tightened. Average is 2-3 threads per side per area.
