Horsepower cannot exceed the limitations set by the U.S. Coast Guard, the manufacturer's rating plate, or the maximum horsepower set by SOLO100. In the event there is reason to suspect the horsepower requirement is exceeded, the competitor agrees to submit their boat and outboard motor used in the tournament to an inspection by factory-trained personnel. Changing or altering standard factory parts of a competitor's engine to increase the horsepower over the factory horsepower rating is forbidden and will result in disqualification.

18. BOAT INSPECTION: The Boat inspection before blasting off by video.

19. PERMITTED FISHING LOCATIONS:

19.1 The Tournament Director may establish tournament waters and off-limits areas for each tournament. Specifically, any water within tournament waters posted “Off-Limits” or “No Fishing” by state or federal agencies will be OFF-LIMITS and announced at the Tournament Briefing.

19.2 Only water open to all public fishing and accessible by boat on the tournament waters will be considered tournament waters.

19.3 All angling must be done from the boat.

20. COMPETITORS MUST REMAIN IN BOAT:

20.1 Competitors must leave and return to the official checkpoints by boat.

20.2 Anglers cannot leave their boat to land fish or make the boat more accessible to fishing waters.

20.3 Boats must remain in tournament waters during tournament hours.

21.3 At check-in, all anglers shall identify themselves by the Boat Number provided, and all fishing must cease & be at designated ramp at flight time.

22. SCORING: Tournament standings, auxiliary awards, and final winners shall be determined by the pounds-and-hundredths weight of each competitor's catch during the tournament competition days.

22.1 Only Largemouth, Smallmouth, Spotted, or Redeye bass will be weighed.

22.2 The creel limit shall be five (5) bass of the above species and varieties per day unless otherwise established by the tournament director. The official length for bass shall be established by State regulations or by the Rules Committee.

22.3 Once a tournament limit is reached and is in possession, contestants must cull immediately following their next catch, and culling of dead fish is strictly prohibited. In possession is stored in the contestant's live well, and the contestant resumes fishing or moving from the current location. If the contestant is over the possession limit, the Rules Committee will first reduce the catch to the correct limit starting with the largest fish first and assess a 1-pound penalty per fish over possession. Only bass measuring the official length or more, as determined by the longest straight-line measurement, will be eligible for weighing. Short fish will incur a penalty of 1 pound and will not be weighed. Bass that appear to be mangled, mashed, mauled, or otherwise altered will be weighed solely at the discretion of tournament officials.

22.4 Once a competitor's catch is verified by tournament officials, no additional fish may be added to the catch. Placing bass on a stringer is prohibited; however, culling tags with non-piercing clips may be used.

22.5 In the event of a mechanical failure (boat is inoperable), anglers may have their catch counted by one of the following methods ONLY:

Method 1: The Boat is towed to the weigh-in site by another boat.

Method 2: The Boater secures his boat to an object (pier/bank) and boards another tournament competitor's boat only for a ride to weigh in.

Using either method, the tournament angler must notify tournament staff of the breakdown for instructions.

22.6 Competitors must not allow any bass caught by them to be counted on the score of another competitor.

22.7 Mechanical failures do not extend established weigh-in times.

23. CATCH AND RELEASE: CULLING OF DEAD BASS IS PROHIBITED: A penalty of one .25 pounds per dead fish will be assessed and deducted from the day's total weight. In the event the angler's big fish is dead, a penalty of .25 pounds will be deducted from the big fish's total weight. The Rules Committee will have sole authority for assessing dead fish penalties. For fish care, SOLO100 recommends only the use of T-H Marine G-JUICE live well treatment and G-Force Conservation Cull System with clips that do not puncture. If you do not deflate your fish it will be penalized as a dead fish .25pounds, no more than 3.

24. LATE PENALTY: Competitors who are not in the official checkpoint area as described in Rule 21 at the appointed time shall be penalized at the rate of one (1) pound each minute. Any late penalty will be deducted from the total weight of their catch that day, including any weight to be counted toward a "big bass award." No weight will be awarded if the net weight after penalties is zero or less. Any competitor who is more than 15 minutes late will lose all credit for that day's catch. The exact starting and check-in times will be announced at the Tournament Briefing.
