WHAT WE DO

The Little Maestros program provides a multi-sensory and creative learning experience grounded in the belief that music develops the brain to help memory, hand-eye coordination, and creativity levels and boosts a child's capacity for learning, bringing lasting benefits to your entire school.

Little Maestros will encourage your pupils with 'Being Creative', 'Managing Information' and 'Working with Others' as outlined in the NI Curriculum 'Big Picture.' It will also use music to help young people work with their peers, value the contribution of their classmates and build lasting friendships.

WHAT WE OFFER

Little Maestros can offer you a structured term of music classes for your P1 and P2 classes. Using the NI Curriculum we will explore rhythm, sounds, explore vocal sounds and body sounds.

We will also discover sounds heard in everyday life, sounds that inspire movement and use objects to explore a variety of sounds.
