Colorado River Tea Party Mission Statement

The Colorado River TEA Party mission is to attract, educate and mobilize fellow citizens; to secure public policy which stops the growth of excessive government, irresponsible spending and runaway taxes; to help elect, without directly endorsing, political representatives who are consistent with our core values; and to re-establish the Constitutional Foundation of our Country.

Dear faithful Patriots,

Wishing you a blessed 2023.

I read Johathan Kahn's *The Return of the Gods* yesterday and that laid the foundation for the theme of this week's newsletter. Kahn shows how every time the Israelis shoved Yehovah out of their midst, it left a vacuum and Ball, Ishtar, Isis stepped in to fill the void. He points out that the most anti family protests and legislation happened at Summer Soltice, at the festival that honors demons.

What can we do?

Prepare for a meaningful January election: See the clip from Republican briefs.

Recognize that it's true. No God, NoAmerica.

Join the team to clean up the voter rolls.

Let's get to work.

Colorado River Tea Party Minutes December 1, 2022

Wayne called the meeting to order at 6:00 PM

Cecil gave the Invocation

Big Wayne led us in the Pledge of Allegiance

Gilbert gave the Mission Statement

Nikki read the minutes of the November 17th meeting. **Arlene** motioned to accept, **John** seconded

Matt gave the Treasurers Report. **Gilbert** motioned to accept, **Neil** seconded
John discussed a number of issues Arizonans are concerned about including private school vouchers, water conservation, Biden wanting to ban all assault weapons and the corrupt Arizona midterm election. December 5th is the deadline to certify the election results. Kari Lake, Mark Finchem and Abe Hamadah have refused to concede and are questioning election results. Cochise county supervisors were warned they could face criminal charges if they did not certify results by the deadline. Kelly Ward, AZ Republican Party Chairman and The Attorney General's office are demanding answers from all the problems that occurred on Election Day. Maricopa County officials said answers would have to wait. Once the state certifies the results on Dec 5th there will be a recount between Republican Abraham Hamadeh and Democrat Chris Mayers for Attorney General. Lawsuits cannot be filed until the election results are certified.

Gilbert said there seems to be confusion with the 2 Tea Parties here in Yuma. The new Yuma Tea Party will hold their meetings once a month with the next meeting on January 17th. Our own Colorado River Tea Party will continue to hold meetings on the 1st and 3rd Thursdays of each month here at the Community Christian Church. The Yuma Tea Party is using our Tea Party membership list to recruit our current members.

Carla with ways and Means Committee said we have the new 2024 Trump Hats in and some new regular hats with "United We Stand" and "God Bless America". We also have more banners and new merchandise coming in time for the Date Festival next month.

Jim commented that Wreaths Across America thanked the Tea Party for our donation and they have met their goal of covering 3500 veterans graves for the ceremony on December 7th. You can contact Winnie Moir at 928-502-0238 for further information about the ceremony.

Michelle Pena, Republican Party member elect AZ House of Representatives LG23

is with us tonight. She briefly spoke to say she has had lots of calls offering help and what to expect when she takes office. She will be sworn in on January 9th, 2023.

Daniel Wood on speaker phone talked about the election. Daniel is spearheading the election results in Arizona and is saying that Cochise county signed off and filed a motion of removal on their election report. The report is null and void and will be taken to Federal court. He also indicated Mohave county certified the election results under duress, which makes the report null and void and it will end up in Supreme Court. The machines were unaccredited which makes any ballot unlawful. They are seeking a special election without machines.

Gilbert asked all newly elected and current officers to come up on stage to acknowledge and congratulate them for their past service and for volunteering to serve in 2023.

Neil offered his biweekly "Dose Of Insanity". There is so much valuable information here that I have not taken the time to become familiar with. Take a few minutes to download your copy of the Arizona Constitution and educate yourself on the peoples rights. Sign the petition to take action against the AZ Bar Association especially after reading the details on the 2020 and 2022 election interference. Don't miss Stew Peters "Died Suddenly" video. For the Good Of The Order,

Arlene brought up Fear Porn and said just drop the fear and live your life, quit being afraid of the daily threats that the deep state is trying to force on you. FEAR stands for FALSE EVIDENCE OF APPEARING REAL. I will add think positive thoughts, be grateful and trust in God's plan.

Gilbert moved to adjourn at 7:20 PM and **Neil** seconded.

We will see all of you at the Christmas Party on Thursday, December 15th .

Respectfully Submitted,

Nikki Pollard - Secretary

from Republican Briefs

We better get some answers before the January 28 vote

LORI KLEIN CORBIN, AZ Republican National Committeewoman: It has been brought to my attention that Jim O'Connor is allegedly spreading wild rumors and accusations of corruption about myself and those running to be officers at our January 28 meeting. I was contemplating running for AZGOP chairman to set a tone and tenor of unity and a plan to win in 2024. I have served mainly as a grassroots conservative activist for decades as well as in the Arizona State Senate as a Tea Party conservative candidate in 2011-2013. My conservative record as a state senator was around 97%. I stood with many other constitutional conservatives. We held the line against reckless spending and supported parental empowerment, school choice, secured borders, the rule of law and cut almost \$2 billion in spending. Having run several limited government statewide initiatives that passed, I know about raising millions of dollars, messaging and winning campaigns. Hence, I felt that I was competent to run as our chairman and help heal a very fractured Republican party. However, I also said if someone with more abilities, gravitas and close to our America First Champions came forth, I would not run. Jeff DeWit and I got behind President Trump in early summer of 2015 and put on the first rally along with Tyler Bowyer then MCRC Chair. DeWit was the Arizona State Treasurer, then became COO of the 2016 Trump Campaign and was later appointed Chief Financial Officer of NASA. He has returned to Arizona, has remained involved, saw a need for party leadership and is running. I saw no reason to run and split the vote; I trust Jeff to work with all of us as a team to win in 2024. It is important to do what is best for our party and state. There are those who want to lie, criticize and demean others for their own power plays. I want us to work together to get the job done. I have two more years left of my term as National Committeewoman which I am honored to serve. I am glad that God has inspired Jeff DeWit to step up to lead our party.

No God, no United States of America **By Steve Rossiter -- Canada Free Press**

Without God and the sideboards of religion, specifically Christianity's morals and values, the government was destined to ultimately fail and society would return to tyranny
No God, no United States of America

In an earlier article I identified honesty and reality as two missing ingredients in the conduct of the North American governments (The Missing Ingredients). I am about to reveal the most important ingredient still missing not only from our governments but, from our North American cultures. The abandonment of this ingredient has contributed to the demise and deterioration of our two governments and society in general. The United States Founding Fathers recognized and spoke quite openly about how a successful free society must have God intertwined with the people's government. Without God and the sideboards of religion, specifically Christianity's morals and values, the government was destined to ultimately fail and society would return to tyranny.

Know God, know America

Approximately 30% of the citizens of the United States attend church on a regular basis. Unfortunately, probably half of the churches have replaced the teachings of Jesus and the Bible with popular woke/social justice principles contrary to God's Word. How well is that working out? Declining church attendance, increased acceptance of sexual perversions, increasing acceptance of the murder of the unborn, property crime, acceptance of growing murder rates, belief that law enforcement is wrong, acceptance of blatant lying by government officials and everyone else, and failure to counter a massive invasion though the U.S. border suggests that things aren't working too well in America or Canada.

"A lie doesn't become truth, wrong doesn't become right and evil doesn't become good just because it's accepted by a majority" ~ Booker T. Washington

"Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other." ~ John Adams

"It is impossible to govern the world without God. It is the duty of all nations to acknowledge the Providence of Almighty God, to obey his will, to be grateful for his benefits and humbly implore his protection and favor." ~ George Washington

“Do not let anyone claim tribute of American patriotism if they even attempt to remove religion from politics.” ~ George Washington

“I am sure that never was a people, who had more reason to acknowledge a Divine interposition in their affairs, than those of the United States; and I should be pained to believe that they have forgotten that agency, which was so often manifested during our Revolution, or that they failed to consider the omnipotence of that God who is alone able to protect them.” ~ George Washington

“What students would learn in American schools above all is the religion of Jesus Christ.” ~ George Washington

“The reason that Christianity is the best friend of government is because Christianity is the only religion that changes the heart.” ~ Thomas Jefferson

“Man will ultimately be governed by God or by tyrants.” ~ Benjamin Franklin

“Remember civil and religious liberty always go together: if the foundation of the one be sapped, the other will fall of course.” ~ Alexander Hamilton

“Liberty will not long survive the total extinction of morals.” ~ Samuel Adams

“Religion and good morals are the only solid foundation of public liberty and happiness.” ~ Samuel Adams

“The future and success of America is not in this Constitution, but in the laws of God upon which this Constitution is founded.” ~ James Madison

“We have staked the whole future of our new nation, not upon the power of government; far from it. We have staked the future of all our political constitutions upon the capacity of each of ourselves to govern ourselves according to the moral principles of the Ten Commandments.” ~ James Madison

“Our Constitution represents the work of the finger of Almighty God.” ~ James Madison

“Resistance to tyranny becomes the Christian and social duty of each individual... Continue steadfast and, with a proper sense of your dependence on God, nobly defend those rights which heaven gave, and no man ought to take from us.” ~ John Hancock

“It is when a people forget God, that tyrants forge their chains.” ~ Patrick Henry

“My most cherished possession I wish I could leave you is my faith in Jesus Christ, for with Him and nothing else you can be happy, but without Him and with all else you'll never be happy.” ~ Patrick Henry

With these words of America's Founding Fathers, how can there be any argument that religion is a necessary ingredient to a successful government for a free society? The perverted interpretation of the First Amendment to the Constitution that has been too generally accepted about the “separation” of church and state is a gross misrepresentation of the Founding Fathers intent.

“One's god dictates the kind of law one implements and also controls the application and development of that law over time. Given enough time, all non-Christian systems of law self-destruct in a fit of tyranny.” ~ George Washington

“I wish I could leave you is my faith in Jesus Christ, but without Him and with all else you'll never be happy.” ~ Patrick Henry

“It is when a people forget God, that tyrants forge their chains.” ~ Patrick

Henry

“Resistance to tyranny becomes the Christian and social duty of each individual... Continue steadfast and, with a proper sense of your dependence on God, nobly defend those rights which heaven gave, and no man ought to take from us.” ~ John Hancock

“Resistance to tyranny is service to God.” ~ James Madison

“Rebellion to tyranny is obedience to God.” ~ Thomas Jefferson

America’s Founding Fathers had an extraordinary understanding of human nature. They hoped for something different, but they foresaw what has happened in the late 20th century and early 21st century in America. They prayed for a different outcome, but understood that history usually repeats itself.

When you don’t change, history repeats itself. Then you have to decide if changing is for the best, or you keep seeing repeats because you’re doing something right. ~ Rebecca McKinsey.

Each time history repeats itself, the price goes up. ~ Ronald Wright.

God is missing, or rather, He is being ignored in modern North America. Throughout history as recorded in the Bible, denying or ignoring God has never turned out well for the ungodly. The Bible and our Founding Fathers gave us a heads up. What are we going to do about it?

**Know God, know America. No God, no America.
Know God, know a free world. No God, no free world.**

CHOMP! CHOMP! CHOMP! ...

Woke and broke U.S. Army now accepting recruits with ADHD, other "behavioral challenges"

By Begee Welborn -- Hot Air

Being all uber-woke you can be has just about brought the Army to its knees.

In this day and age, they've fallen so far down the rabbit hole anymore that they can't get anyone who's their normal target recruit to sign up to save their lives. Or anyone else's, for that matter. Their recruiting numbers are dismal.

...The service fell 15,000 recruits short of its fiscal 2022 goal and it cut its goal for total number of soldiers in fiscal year 2023 by an additional 15,000, suggesting that it sees a longer-term problem.

Only 23% of young Americans meet the fitness, health and other standards required to join the military, according to Army statistics, and less than 10% are interested in joining.

WHY aren't they interested in joining? I'll give you a clue.

All this morale-destroying socialist BS produced – like the massive admin bloat on college campuses – the accompanying rise in employment opportunities not for warfighters, but for Experts™ and Diversity Police™.

...The Biden administration's politicization of the armed forces has contributed to this disturbing collapse in morale.

Soon after Joe Biden became president, the Pentagon ordered an unprecedented military-wide “stand down” of service members to root out right wing domestic extremists, wasting 5.8 million man hours. The Pentagon then hired Diversity, Equity, and Inclusion Officers at salaries as high as \$200,000. For the past two years, the Department of Defense rigidly enforced vaccine requirements, cutting off tens of thousands of service members from benefits, even when many have legitimate objections and are young, healthy adults.

...In recent years, the academies have also taught radical doctrines like Critical Race Theory under the label of “diversity and inclusion.” The Air Force Academy established a special “Diversity and Inclusion reading room” that it described as a “safe space” for America's young warriors. It also created an organization of hand-picked cadets – identified by a purple braid on their dress uniform—to spread these controversial ideals in the ranks. At West Point, cadets can now minor in “Diversity and Inclusion Studies” alongside cadets studying serious subjects like Grand Strategy, Aeronautical Engineering, and Nuclear Science.

Not to mention the resentment it engenders spending the scarce resources available on the wrong things.

The primary difference being, as every veteran knows, that on a college campus or at a job, when you tell the hired DEI Nazi they are free to blow their suggestions how you should frame your language out a selected orifice, the absolute worst that happens is unemployment or disenrollment.
