### **Colorado River Tea Party Mission Statement**

The Colorado River TEA Party mission is to attract, educate and mobilize fellow citizens; to secure public policy which stops the growth of excessive government, irresponsible spending and runaway taxes; to help elect, without directly endorsing, political representatives who are consistent with our core values; and to re-establish the Constitutional Foundation of our Country.

All links included are for information purposes only and do not necessarily represent the opinions and/or views of The Colorado River Tea Party. Other publications/web sites are solely responsible for their own content.

## Colorado River Tea Party Website

Dear faithful Patriots,

The Yuma GOP is going dark this summer. It's all on our shoulders now. I'm exhausted. Do something to pick me up.

On Thursday, May 18, 2023, *Yuma Mayor Doug Nicholls* will fill us in regarding potential impacts for the greater Yuma community due to the expiration of Title 42. As the Feds continue to facilitate the invasion of illegal aliens into our country, perhaps our Mayor will have some suggestions as to what actions We the People might take to stem the rising tide of the invasion!

Cora Lee Schingnitz, Editor  
Email me at: [coraleemoen@gmail.com](mailto:coraleemoen@gmail.com)

Fly away on that vacation you always wanted;  
give away as a gift; or keep the money!

RAFFLE!

Only 125 tickets will be sold!  
When they are sold, we will draw the winner.

\$850 Airline Travel Voucher

Or

\$850 cash.  
\$10 per ticket  
SPONSORED BY:

- The rules: 1. Drawing will be held upon the sale of 125 tickets  
2. Winner need not be present  
3. All cash or personal checks for tickets shall be paid to Arizona Republican Assembly – no business or corporate payments accepted.  
4. Disputes resulting from the drawing will be settled by the AZRA State Executive Committee  
5. Please direct all questions to: [LYLE@AZRAAZ.ORG](mailto:LYLE@AZRAAZ.ORG) OR call 623-451-6928

Tickets are available on-line at <https://azraaz.org/travelrafflemay2023/>

## Quotes

### Why the Foundes did NOT Establish a Democracy.

"[D]emocracy will soon degenerate into an anarchy, such an anarchy that every man will do what is right in his own eyes and no man's life or property or reputation or liberty will be secure, and every one of these will soon mould itself into a system of subordination of all the moral virtues and intellectual abilities, all the powers of wealth, beauty, wit and science, to the wanton pleasures, the capricious will, and the execrable cruelty of one or a very few."

John Adams

An Essay on Man's Lust for Power, 1763

### Do you Recognize USA 2024?

"Achieving "net zero" carbon dioxide emissions will be painless, they assure us. Costs will be so low that you'll [need a magnifying glass](#) to see them. Governments merely have to enact mandates and provide subsidies, and the transformation to "clean" energy will just happen. Almost like in a fairy tale."

Joe Biden

Be sure to read the followig article that blows that up wky high.

---

## Colorado River Tea Party Minutes

May 4, 2023

**Jim** called the meeting to order at 6 PM

**Cecil** gave the invocation

**John** led us in the Pledge of Allegiance

**Jim** read the Mission Statement

**Tanya** updated us on the Superintendent of Public Instruction, Tom Horne's visit to Yuma. Private meetings and a Town Hall meeting were held to address concerns of our school's curriculum for 7th, 8th grade and high school students. Feedback was solicited from school teachers, admins, principals and parents from public, private, charter and

home schools. There was push back, tension and aggression from public schools who thought some discussion was unfair and they wanted a level playing field.

**Nikki** read the minutes from the last meeting. Arlene made a motion to accept, Gilbert seconded, motion passed. Nikki read the Treasurers Report as Ruth was not present. Neal made a motion to accept, Gilbert seconded and the motion passed.

**John** with the Legislative Committee reported that the Supreme Court ruled against the ATF and strikes down bump stock. Biden is sending 1500 troops to the border before Title 42 expires on May 11th. They will only perform administrative tasks for 90 days. There are at least 30 to 90,000 illegals in Texas and Arizona waiting to get in.

**Carla** Ways and Means Committee is resigning at the end of May. She will train anyone who takes over this position. We are not buying any new merchandise for the summer. We may consider only offering coffee and water at future meetings as we phase out the variety of sodas now offered. Carla thanked Dr. Doniparthi for tonight's variety of desserts and said we still need a volunteer to furnish treats for June 15th and after July 6th. A sign up sheet will be passed around at the next meeting.

**Our speaker this evening is Constitutional Advocate, Daniel Wood.**

Daniel resides in Phoenix and is joining us via cell phone to discuss the Liz Harris story and why she was expelled from the AZ legislature.

He said AZ House Representatives Joseph Chapwick

lied about Liz Harris and should have stopped her expulsion. Ben Toma spearheaded to get rid of her. The Maricopa County Board of Supervisors are taking their time to make a decision on one of the three candidates, even though Liz Harris has the majority of votes. On May 5th, Julie Willoughby was appointed to replace her. Daniel released a video with Michele Swinick that the Tea Party sent out to everyone who is getting our newsletter. Please take the time to listen to it to discover how several of our House Representatives are not abiding by the House rules or Code of Conduct. The link is <https://rumble.com/v2januo-arizona-representative-liz-harris.html>. Liz had the approval of Wendy Rogers to bring Jacqueline Breger to present grievances against her individual rights. An investigation was blocked by the House and instead they went after Liz Harris. This video will highlight the lack of knowledge our elected representatives and also We The People have about our state and federal Constitution. They know we

aren't educated and take advantage of our ignorance. They manipulated the conversation to fit their narrative and we don't know the constitution so we don't oppose it.

Daniel mentioned HCR 2039 that the Government may proclaim a state of emergency as provided by law. Public Health Authorization 36-787 in a state of emergency can mandate vaccinations if reasonably exposed or expected to be and can even isolate quarantined persons and that the national Guard can enforce under government rule. So Governor Hobbs can call a "State of Emergency" if illegals have highly contagious or fatal diseases. We don't have separation of powers any longer. Lawyers and Lobbyists are operating as judicial officers. Judges, lawyers and news agencies are corrupt, mail in ballots are unconstitutional, government is running our elections through dominion machines, ERIC, Runbeck, USPS.

Daniel said people are learning and waking up. They are asking him to teach them. We need to learn the Constitution, assemble as a people and speak out. He leaves us with these thoughts. Know your State and Federal Constitution and Walk by Faith And Not By Sight.

**Good of the Order**

**Dr. Doniparthi** said physicians are throwing out their oath and doing transgender surgeries at U of A because of the money they make. We have to speak out.

**Gilbert** suggested we go to our public schools and tell them to bring back the Ten Commandments. Neil reviewed his "Hidden Information" flyer to highlight another dose of insanity in our country. Arlene asked for volunteers to fill the spots that Ruth was filling for voter registration.

Please send your prayers for healing and support for Rich and Ruth.

**Jim** asked for a motion to adjourn at 7:45 PM. Gilbert made a motion, Neil seconded and our group left more informed about of state government thanks to Daniel Wood.

## Have We Reached Peak Crisis?

**Ben Shapiro**

The immigration crisis on our southern border continues to get worse, according to the Wall Street Journal. Officials in New York and Chicago have now declared states of emergency after Texas Governor Greg Abbott resumed busing migrants to northern sanctuary cities ahead of the expiration of Title 42. Officials have been trying to provide housing and services for those new arrivals in Chicago, New York, and Washington, D.C. Lori Lightfoot says they have hit the breaking point in Chicago. There will soon be 10,000 illegal immigrants consistently arriving at the border every single day. And all those people are being schlepped to the streets of El Paso and left there. But Lori Lightfoot is in a state of panic because a few busloads of people are entering a city of millions.

At the same time, Eric Adams, the mayor of New York, is claiming it is cynical to send people to New York City as a destination. So what is he doing? His plan is to whine about people being sent to New York City — one of the biggest cities on the entire planet. Then, he is going to send those illegal immigrants to Rockland County. The suburbs.

So, to summarize, it is bad when Greg Abbott sends busloads of illegal immigrants to New York City. But it is good when Eric Adams takes those busloads and unloads them in Rockland County. In fact, Rockland County top officials declared a state of emergency on Saturday in response to Adams' plan to send 340 adult male migrants to live in a small hotel in Orangeburg, New York, for four months.

Meanwhile, immigrants continue to pour over the borders, as you can see in [THIS](#) video from Matamoros, Mexico, which is truly shocking. And Joe Biden, despite being the actual president, continues to refuse to take any responsibility or answer any questions regarding this crisis.

He could just send Kamala in. Remember, he deployed her to solve the border crisis two years ago, and it has been going swimmingly. By “swimmingly,” I mean thousands of people are actually swimming across the Rio Grande to

enter the United States. Well done, Joe and Kamala. Prepare yourselves for the largest border wave in modern history.

## Net Zero grid batteries alone would bankrupt America

By **Craig Rucker**

Achieving "net zero" carbon dioxide emissions will be painless, they assure us. Costs will be so low that you'll [need a magnifying glass](#) to see them. Governments merely have to enact mandates and provide subsidies, and the transformation to "clean" energy will just happen. Almost like in a fairy tale.

Here in the real world, however, we would need literally millions of weather-dependent wind turbines, billions of equally unreliable solar panels, millions of half-ton battery modules for vehicles, billions more modules to back up intermittent electricity generation, millions of transformers, and tens of thousands of miles of new transmission lines.

All these technologies must be manufactured from metals, minerals, and petroleum extracted from the Earth, via mining on scales unprecedented in human history.

The dollar costs alone — just for a U.S. transformation — are almost incomprehensible.

Science and policy analyst David Wojick calculated that just the batteries needed to back up wind and solar electricity generation in a "net zero" USA would [cost \\$23 trillion](#) — America's entire 2021 gross domestic product (GDP) — and probably many times that.

Energy and technology consultant Thomas Tanton found that battery backup to replace current U.S. fossil fuel electricity — and convert vehicles, furnaces, water heaters, and stoves to electricity — would [cost at least \\$29 trillion](#) in initial outlays. Trillions more would be needed to cover financing, repairs, maintenance, replacements, burying broken and worn out non-recyclable equipment, and building systems strong enough to survive hurricanes.

Professional engineer Ken Gregory determined that grid-backup battery costs [could reach \\$290 trillion](#) (12.6 times the USA's 2021 GDP), based on actual 2019 and 2020 hourly intermittent electricity generation data, rather than annual average

data utilized in the other studies.

None of these estimates includes the costs of turbines, panels, transmission lines, or transformers.

Energy analyst Francis Menton estimated that New York's plan to procure [24,000 megawatt-hours](#) of battery storage would provide only 0.2% of what the state would actually need as backup. But even that would require 300,000 Tesla Long Range 80-kilowatt-hour battery modules — before New York mandates electric automobiles and home heating and cooking systems.

Each of those modules weighs over 1,000 pounds and holds 6,000 individual lithium-ion cells. Each one contains [25 pounds of lithium](#), 60 pounds of nickel; 44 pounds of manganese; 30 pounds of cobalt; 200 pounds of copper; and over 550 pounds of aluminum, steel, graphite, plastics, and other materials, energy analyst Ron Stein reports.

To manufacture each module, we must mine 30,000 pounds of cobalt ore (much of it with child labor in the Congo), 5,000 pounds of nickel ore, and 25,000 pounds of copper ore, plus inject and extract 25,000 pounds of brine to get the lithium.

Backing up New York's peak summertime electricity needs for just 45 minutes (those 300,000 battery modules) would require 3,750 tons of lithium, 9,000 tons of nickel, 6,600 tons of manganese, 4,500 tons of cobalt, 30,000 tons of copper, and 82,500 tons of other materials.

Together, we'd need to mine more than seventy-five million tons of ores for those New York grid-backup batteries — after removing at least as much overlying rock to get to the ore bodies.

Backing up California's currently planned wind and solar electricity generation would require nearly 310,000,000 long-range modules.

Imagine the batteries, materials, and ores that we'd need for the entire USA — or world!

Processing those ores into finished metals requires acids and other chemical processes and results in extensive toxic wastes that cause horrific air and water pollution if not handled properly.

This is absolutely not clean, green, affordable, ecological, or sustainable.

The bottom line: "Net zero" is aptly named — if what is meant is the sum total of our nation's bank account and natural resources after it's implemented.

Craig Rucker is president of the Committee for a Constructive Tomorrow (CFACT), which is spearheading [Net Zero Reality Coalition](#) efforts to better inform voters and Congress about the actual monetary and ecological costs of transforming our economy to "renewable" energy.

## Our Mission Statement

The Colorado River TEA Party mission is to attract, educate and mobilize fellow citizens; to secure public policy which stops the growth of excessive government, irresponsible spending and runaway taxes; to help elect, without directly endorsing, political representatives who are consistent with our core values; and to re-establish the Constitutional Foundation of our Country.

### *From the Arizona Constitution* **Article 2:**

#### 1. Fundamental principles; recurrence to

**Section 1.** A frequent recurrence to fundamental principles is essential to the security of individual rights and the perpetuity of free government.

#### 2. Political power; purpose of government

**Section 2.** All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights.

#### 21. Free and equal elections

Section 21. All elections shall be free and equal, and no power, civil or military, shall at any time interfere to prevent the free exercise of the right of suffrage.

#### 32. Constitutional provisions mandatory

Section 32. The provisions of this Constitution are mandatory, unless by express words they are declared to be otherwise.

#### 33. Reservation of rights

Section 33. The enumeration in this Constitution of certain rights shall not be construed to deny others retained by the people.
