DIRECTOR'S NOTE

I truly believe that there is so much more to theatre than just being an actor on stage. I take pride in knowing that every kid will find a home within the theatre. We have had a variety of learning experiences for kids during this production from set design, to costuming, and even tech. The kids were given the opportunity to build their own characters and allowed their creativity to flourish. Everything you see on stage today had some influence from the kids. I really hope you enjoy their performance, they have been working so hard!
