TECHNOLOGIES™

FieldGoal®

***A BLEND OF NON-AMS WATER
CONDITIONING AGENT,
NONIONIC SURFACTANT
AND DEPOSITION AGENT.***

FieldGoal minimizes antagonistic effects of hard water minerals that may negatively impact herbicide performance. The surfactant ingredient in **FieldGoal** also provides spreading that produces better spray coverage over the plant surface, improving the effectiveness of the spray material on the target species. The addition of **FieldGoal** in the tank mix enhances deposition and reduces off-target drift during application.

General Use Rate:

4-8 PT./100

Dicamba Use Rate:

5 PT./100

FEATURES AND BENEFITS

- ✓ Improves herbicide performance
- ✓ Increases penetration of active ingredients
- ✓ Optimizes spray droplet size and coverage
- ✓ Improves uptake of pesticide by the weed
- ✓ Compatible with most tank mixes

FieldGoal is a non-AMS product and is currently approved for use with specific products containing dicamba that are labeled for use on crops containing auxin genetic traits. Always read and follow label instructions before use.
