bollé

PERFORMANCE INNOVATION SINCE 1888

Born in 1888 in France, Bollé is
the market leading solution for
eyewear and helmets.

Globally respected and worldwide
distributed, **Bollé is known as the
most advanced design and creative
sport brand**, which creates trends
and pushes industry boundaries.

Brand History

1888

A family business

Seraphin Bollé created the brand Bollé; known at this time as one of the first company to use newly developed celluloid, which becomes the basis for Bollé products during those early decades.

1950

Safety Glasses and Goggles

Safety glasses and goggles were added to the Bollé Line and strengthened our position of pioneer and most performing brand in the industry.

1960

Ski Goggles

Ski goggles were first marketed by Bollé.

2007

Ski Helmets

Launch of the first line of ski helmets. A front-line player in the winter sports landscape.

2018

PHANTOM+
LIGHT ADAPTIVE LENS TECHNOLOGY

Launch of the best sport lens ever.

2021

VOLT+
HIGH CONTRAST ENHANCED COLOUR

A revolutionary HC and polarized lens

1936

Sunglasses

The brand launches its first sunglasses and becomes quickly the pioneer of molded Nylon.

1956

Cat-eyes

Georges Bollé created the famous nylon 'cat-eyes' sunglass.

1986

Chronoshield

Launch of the iconic cycling model.

2015

Cycling Helmets

Launch of the cycling helmets line.

2020

RYFT

The most ventilated snow helmet in the market.

MIPS technology

MULTI-DIRECTIONAL IMPACT PROTECTION SYSTEM

MIPS ADDS MORE PROTECTION AGAINST ROTATIONAL MOTION

MIPS is a revolutionary technology that lets the helmet slide relative to the head, adding more protection against rotational motion to the brain caused by angled impacts. Because keeping you safe in every condition is our priority, FURO, EXO, & TRACKDOWN models feature the MIPS technology.

THE MORE RED THE MORE STRAIN

This simulation illustrates strain in the brain from a similar angled impact when the user is wearing a helmet without MIPS and a helmet with MIPS.

ROAD HELMETS

BOLLÉ / CYCLING

ROAD HELMETS

PERFORMANCE INNOVATION
SINCE 1888

Fast... and Furo!

Furo Mips is Bollé's pinnacle performance road cycling helmet. Design work on aerodynamics and ventilation and airflow testing, all inspired by the automotive industry, laid the foundation for Furo Mips. Also paired with innovative solutions on the comfort side, this helmet is packed with features designed to enhance your performance on the road.

WIND SHELLS

The wind shells make your helmet more aerodynamic, while bringing extra protection during bad weather.

OPTI-DOCK

With Bollé's history of designing and developing eyewear it felt only right to have a dedicated place to stow your eyewear in the FURO. Bollé's Opti-Dock storage system is a dedicated place to securely stow your eyewear.

360° INTEGRATED MIPS

A homogeneous system works better than two independent parts. Hence our decision to combine the Mips Low Friction Layer and our helmet Fit System. The result is a seamless, lighter look inside the helmet, thus providing great fit & comfort for the longest rides.

ROLL CAGE

Mostly seen on racing cars, the roll cage is a specially engineered and constructed frame built into the vehicle compartment to protect from injuries in case of a rollover. Using this principle, we decided to adapt the roll cage to our helmet construction. The roll cage reinforces the helmet, allowing the creation of huge vents to increase airflow.

NACA DUCT

Originally developed for aerospace, this submerged inlet provides less drag for better aerodynamics. It increases airflow inside the helmet, bringing a higher level of ventilation.

KAMM TAIL

The abrupt rear cut-off delivers a smaller wake that reduces drag and so improves aerodynamics.

360° Fit System

\$250.

With a sleek design borrowed from car racing, EXO MIPS offers an aerodynamic design characterized by a kamm tail, specially engineered to reduce drag and improve aerodynamics. Packed with performance & comfort features, EXO MIPS also offers deep internal channeling for a great ventilation and a 360° fit system. The MIPS protection system redirects energy to provide more protection in angled impacts.

Ride in style

AVID PROGRESSIVE EPS

Creating helmets that perform in all types of collision requires getting the details exactly right. This is why Bollé Research & Development team has developed a technology bringing ultimate protection to your head in every type of impact situation.

HIGHLY VENTILATED

REACT has been designed with 13 vents to allow a big air intake while maintaining the highest safety level.

DUAL SHELL CONSTRUCTION

MIPS® BRAIN PROTECTION SYSTEM

For ultimate protection performance, REACT is equipped with the best brain protection of the market : MIPS® patented Brain Protection System

CLICK-TO-FIT™ SYSTEM

This system allows you to fine tune the fit of your helmet easily and quickly. Our rubberized adjustment wheel lets you tighten or loosen the helmet effortlessly, even with your gloves on.

Lightweight and ventilated, but undeniably urban. The REACT is developed to combine the performance of a road cycling helmet with a style inspired by the streets. Made with a dual shell construction, equipped with Mips and Avid Progressive EPS, the REACT will protect you at all times. Its 13 vents along with the Coolmax lining that drains moisture away will make you feel cool and ventilated in any conditions. Our new stylish urban helmet has a removable cap with reflective lining in case you are out at night. Ride in style with our new REACT helmet.

The same qualities that make our helmet lightweight, comfortable, and safe also make it eco-friendly. With the ECO-REACT, we are challenging the traditional way to make helmets, replacing some plastic and petroleum products by organic materials to reduce the environmental impact. We have added cork to the EPS, used recycled plastics for the shell, and natural fibers such as cotton webbing and bamboo fiber lining. It's our first step to respond to the needs of cyclists who want to pursue an active lifestyle in the city while doing their part for the planet.

OFFROAD

HELMETS

PERFORMANCE INNOVATION
SINCE 1888

The best in MTB safety

TRACKDOWN is an all-mountain helmet designed to perform on any trail. This helmet features a deep coverage at the rear, the Bollé Eyewear Storage to store your sunglasses, Vent caps to protect from bad weather conditions, and a 3-position visor allowing space for goggles. If you're looking for style and comfort on the tracks, the Trackdown is the ultimate gear to wear.

ADJUSTABLE VISOR

With 3 positions, the adjustable visor adapts to all ride conditions, and means your goggles can sit on your forehead.

OPTI-DOCK

TRACKDOWN is equipped with the specific Opti-Dock storage system designed to hold a pair of sunglasses, ideal when you need to give your eyes a rest.

VENT CAPS

Plug them in and stay dry! The vent caps efficiently block off wind and rain for the wettest outings.

GREAT PROTECTION

Deep coverage to protect you in all conditions, whether you are climbing up or riding down the hill.
