 LONG SLEEVES

10 BLACK

\$\$128, 99

Long-sleeved base layer with a turtleneck collar. Its 3D structure makes it perfect for the middle and winter season. Made in DRYARN® and MERYL® hypoallergenic and bacteriostatic microfibre. DRYARN® is a high-performance polypropylene fiber, more breathable than polyester, more insulating than wool and lighter than any other fiber. The jersey has different compression areas in order to improve the muscular performance and is equipped with 3D areas capable of maximizing thermoregulation and breathability. It is an exceptional item to wear next to skin with a shirt on top or directly under the jacket on warmer days.

 BASE LAYER size S/M-L/XL-2XL/3XL
 LONG SLEEVES

10 BLACK

\$113,99

An extremely light, long-sleeved base layer. Perfect during mid seasons. Body fit Evo is made in DRYARN® polypropylene next to skin and NILIT® BREEZE, an ultra-soft fiber which, thanks to its cooling effect, helps maintain the correct body temperature during and after physical performances. DRYARN® is a high-performance polypropylene fiber, more breathable than polyester, more insulating than wool and lighter than any other fiber. The jersey has areas with lightweight structures that allow better regulation of perspiration thanks to the exceptional drying speed of polypropylene.

● **ULTRALIGHT** 89181191
 BASE LAYER size XS-XXL
 SLEEVELESS

50 WHITE

\$59, 99

Ultralight openwork polyester grants superior moisture management to ensure long-lasting freshness
 4-needle flatlock seams for enhanced comfort
 Round neck
