MESSAGE

Nofel is a product of sweat and pain, of snow and rain, of falling and rising, and the euphoria experienced when pushing endurance limits. Since it has been born, the name of our game has been the provision of optimal performance through functional sports Wear and accessories. For almost as long we have been an integral part of the professional world of sports.

Our expertise in designing sport-specific garments for optimal function comes largely from a long and fruitful collaboration with elite athletes across the globe.

Our expertise in designing sport-specific accessories for optimal function comes largely from a long and beautiful cooperation with elite sportsmen and women from all over the world.

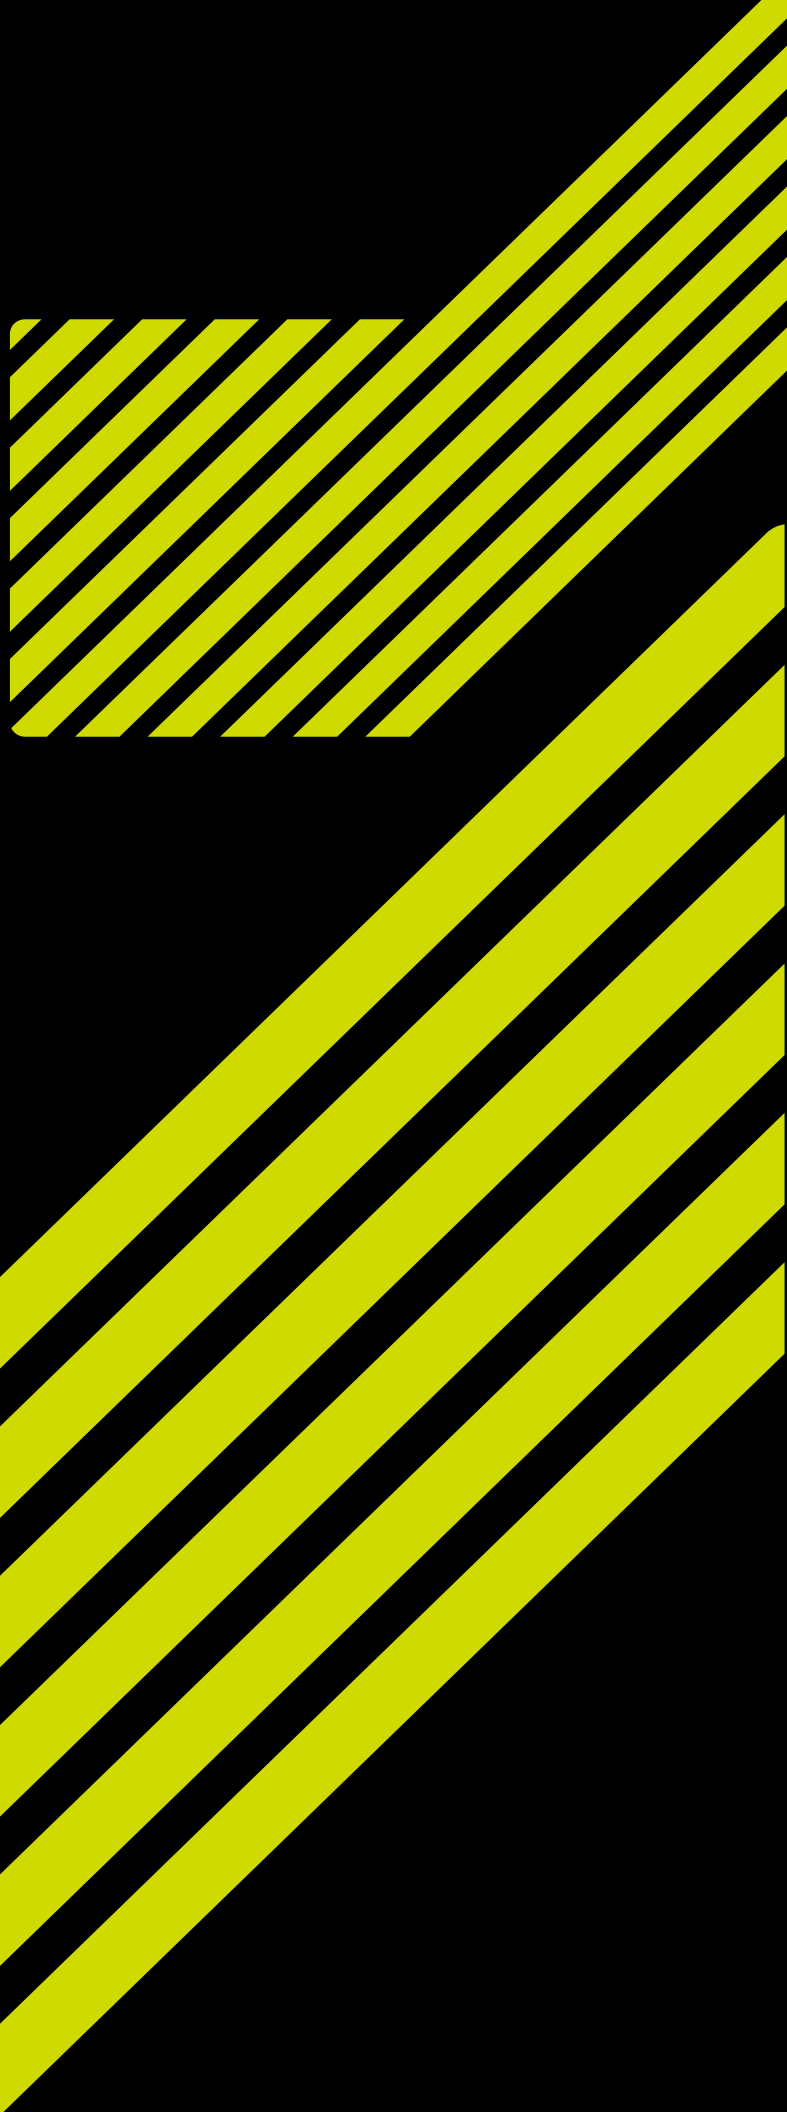

Their stringent demands on function and comfort drive the continued development of our design, technology and quality based on their feedback, we design our products for athletes of all levels.

The world has changed a great deal since. The nofel brand has also gone through many stages over the Years. The concept, however, is still the same- To produce the functional sportswear for optimal performance. A good idea that will withstand the test of time.

Nofel has been a challenge for companies across the globe, our products are not only economical but they are the most innovative and functional out of all available in market. Our strong connection in far east enable us to source the right functional fabrics for the right sport and based on the temperature through out the year as well.

Nofel has the biggest range of running accessories in the world, our range covers all the seasons and requirements of athletes and consumers.

With our distribution centers in USA, Canada, Europe, Russia, Australia, Nofel is the fastest growing running accessories brand in the globe.

PILLING RESISTANT

HIPORA developed by Koon 4 has seemingly contrary characteristics which are Moisture Permeability, Water Resistance, Breathability and water Repellency. HIPORA has solved the biggest problem inherent in the conventional waterproof film. HIPORA has the secret in the unique polyurethane coating technology. That is, numerous number of micro pores (abt. 5 billion /cm²) of the minimal size (50-100) are placed all over the polyurethane Coated film. They shut out the water from outside, but allow the moisture or warm steam from the body go out. When the body perspires from strenuous work or exercise the perspiration easily escape leaving the wearer feeling comfortable.
Main: HIPORA-Moisture
Main size: 130-3.000eu 5.1-3.0eu-3.0004eu

Advantages of "Clarino"

- Excellent quality, wide surface texture
- Soft and flexible
- Breathable leather
