

WIFQHA Herd Help Clinic

Friday June 3, 2022

(June Show is the 4th & 5th)

Black River Falls County Fair Park

Billy Yoder and Matt Davison

Learn the details of herd help when riders are working cows during their class run. Each corner has different responsibilities. Learn when and how to push a cut cow vs. when to leave it alone. Also, when to push the herd and how and when to hold the corners. These four important people on their horses have the ability to make or break a person's run. Learn what is helping too much where the judge may dock points for the cutter. Our organization is in need of quality herd help so please consider attending this clinic! Register for herd help for one time slot and cutting runs for the next time slot or just one or the other. Either way there will be lots of great information shared with all attendees.

Time Slots

Will fill the **4-6 pm** time slot first (max 8 people)

Then fill the **6-8 pm** time slot second (max 8 people)

Then fill the **2-4 pm** time slot last (max 8 people)
