

RUALLERGIC HOUSEHOLD: Your Path to a Healthier Home

Are unexplained allergies affecting your family? Take control of your indoor environment with RUALLERGIC HOUSEHOLD's innovative solution, allowing you to monitor allergen (dust mites, cockroaches, mold, pet dander, and pollen) exposure from home.

Why Choose RUALLERGIC HOUSEHOLD?

1. Empowering Insights: Our human biomonitoring technology provides personalized insights into your allergen exposure through proprietary algorithms that measure allergy-related biomarkers.
2. Simple and Convenient: Our non-invasive dried blood spot (DBS) collection method, requiring just a few drops of blood on a special card that you can collect at home.
3. Cost-Effective Wellness: Manage your health affordably with RUALLERGIC HOUSEHOLD, empowering informed decisions for you and your family.

Join the Movement for Healthier Household

Your family can benefit from our allergen monitoring approach. Create a safer, healthier environment for your loved ones.

The Impact of Allergens on Your Family

Indoor allergens can lead to issues such as asthma attacks, chronic cough, eczema flare-ups, and fatigue. Don't let allergens compromise your family's health—take charge with RUALLERGIC HOUSEHOLD.
