

Transportation - Automotive & Heavy-duty Diesel

Altum Global™ provides consulting to transportation industry clients focused on establishing or expanding new markets in North America or other global regions. Our technical, legal and management experience help develop, commercialize and implement business strategies that meet your objectives.

VISION TO SUCCEED IN A RAPIDLY-EVOLVING SEGMENT

Automotive and diesel equipment companies around the world face demanding strategic decisions that will have broad rippling effects on their business for the next decade. Our team’s experience with industry leaders can help you convert this market change into opportunity and success:

- AC Delco
- Bosch
- Dana Corporation
- Delphi
- Detroit Diesel Corporation
- GE Automotive Plastics
- Motorcar Parts of America
- Navistar
- Whiting Door
- Wix Filters

Whether you remanufacture emissions components for the aftermarket, provide entire chassis systems to OEMs, develop connected vehicle technology or another scenario, you can leverage our experience to achieve your goals.
