TEFOL - PROVIDING SOLUTIONS

Tefol: Providing Solutions for All Your Business Needs

At Tefol, we're committed to offering our customers solutions beyond products. Our goal is to fulfill every request with efficiency, quality, and affordability in mind.

Whoever said you can't have it all - speed, low cost, and top-notch quality - has never worked with Tefol.

We take pride in looking out for our customers' best interests and strive to provide everything your business requires. This catalog provides a glimpse of what we have to offer and the solutions we can provide.

Our comprehensive range of products and services includes everything from consumables and equipment to diesel engines and complete off road trucks. We also offer customized solutions tailored to your specific needs and requirements. For example, custom built D11 dozer working access platforms.

Our team of experienced professionals is dedicated to providing exceptional customer service and support. We work closely with our clients to understand their business objectives and offer personalized recommendations to help them achieve their goals.

At Tefol, we understand that every business is unique, which is why we offer flexible solutions that can be customized to meet your specific needs. Whether you're a small startup or a large corporation, we have the expertise and resources to help you succeed.

So why choose Tefol? Because we're more than just a supplier - we're a partner that's committed to your success.

Contact us today to learn more about how we can help your business thrive.

FASSI CRANES

Fassi Cranes: A Commitment to Quality and Customization

Did you know that more than 90% of components in a Fassi crane are created in-house at one of their factories? This allows for a network of skilled professionals to work together and provide the best quality possible in terms of performance, safety, innovation, and product range. With over 60 models and 30,000 configurations available, Fassi cranes can be customised to meet the unique needs of their customers, who choose Fassi products for their exceptional quality and fittings.

Fassi cranes are designed to be versatile, efficient, and long-lasting, with a focus on safety and ease of use. They are equipped with advanced technology and features that provide operators with precision and control, allowing them to handle heavy loads with ease and accuracy. In addition to their superior performance and functionality, Fassi cranes also boast an attractive and modern design that is sure to turn heads on any job site.

AUSSIE ENGINE DRIVE PRESSURE WASHERS

PRICING ON ENQUIRY

AUSSIE PUMPS

We are an ISO certified and fully Australian owned company. Moreover, we have been making commercial pressure cleaners for over 30 years. We have an extensive dealer network providing local support for selecting the right machine and servicing.

Why Choose an Aussie Pressure Washer?

- **High Performance**– our ‘no compromise’ design criteria means we use Bertolini triplex pumps, chosen for their quality and durability.
- **Reliability** – Using engines from Honda & Yanmar, the world’s leading suppliers, ensures your pressure cleaner will start first time, every time.
- **Aussie Made**– Our cold water blasters are made in-house at our Castle Hill facility by a dedicated team that are passionate about quality.
- **Value**– we can’t be beaten for value for money, we offer great products at outstanding prices.

2600 SERIES

PRICING ON ENQUIRY

PERKINS 2600 SERIES

One and done.

The dynamic 2600 Series delivers power density and performance in a uniquely compact package – providing an impressive 40 kW/L (53.5 hp/L) at 0.45 kW/kg (0.27 hp/lb). That makes it an ideal choice for a broad range of off-highway applications, from agricultural machinery like tractors and harvesters, to construction equipment such as excavators and dozers, to material handling equipment as well as industrial pumps and compressors. The 2600 Series is built and tested to power more of the equipment that moves the world forward.

One engine. Endless possibilities.

Fit to power hardworking applications around the world. The 2600 Series delivers the power of 15-litre and single turbo 18-litre engines in a flexible 13-litre footprint - ready to power heavy equipment in demanding jobsites from farmlands to rock quarries to construction sites and beyond.

HATZ SUMMARY

PRICING ON ENQUIRY

HATZ

The product portfolio of the business fields of Hatz Diesel extends from small and compact single-cylinder diesel engines with 1.5 kW to four-cylinder engines with a power of 64 kW.

In addition to the compact construction of the single-cylinder engines, Hatz is known for the reliability and lifetime of its products across the entire range of services.

All engines are produced according to customer requirement and specification and are also the only engine in this market segment to use air cooling, thus fulfilling the stringent exhaust gas regulations of the USA (EPA Tier IV final) and the EU (Stage IIIB).

HATZ

M-Series – Ready to use all the time

The M-Series is the mainstay among industrial diesel engines. The 2, 3 and 4-cylinder engines have been successfully established on the market for around 30 years – and they are still regarded as unbeatable. The robust basic drive train, notably the sturdiest crankshaft of all engines on the market, has remained unchanged since the market introduction. Thus running times of several ten thousand hours are no problem for the M-Series engines.

- Power from 30.0 to 48.8 kW
- max. torque 197.4 Nm
- max. speed 3000 rpm
- High performance and robust
- Direct injection method with monoblock single pumps
- Exhaust gas return for reduced emissions
- Diesel particle filter
- Certified to EU 97/68 Stage 3B and EPA Tier IV final

TATRA TRUCKS SUMMARY

PRICING ON ENQUIRY

TATRA TRUCKS

The most capable off road trucks on the planet are available in NSW from Tefol. The incredible chassis design and build quality put these military grade trucks in a class of their own.

Why TATRA?

TATRA offers unique chassis concept, which was born in the second decade of the last century and has not yet been surpassed. The main principle is the use of a central load-carrying tube and axles with independently suspended swinging half-axles bolted together into a single unit.

TEF LITES SUMMARY

PRICING ON ENQUIRY

TEFLITES

One of the largest mining corporations in the world came to Tefol after purchasing lighting towers from another manufacturer that were simply not up to the task. Tefol took the time to truly understand what was required, and in typical Tefol fashion worked closely with stakeholders and our engineering team to produce a masterpiece worthy of world class product status.

232,920 lumens. 1 lighting tower. Eight Ultra Low Voltage, Solid State LED Lights. The TefLite 11000 is fitted with eight Coolon CP56 industrial flood lights. These premium lights are designed and manufactured in Australia specifically for industrial applications and suited to situations where bulb maintenance is difficult or impossible. Bottom line, if there was a better light available, we'd use it.

TEF STEPS SUMMARY

PRICING ON ENQUIRY

TEFSTEPS

Premium Australian Made Ladder Access Systems

It took advanced thinking to make our Access Systems so simple.

Increase Operator Safety

As the manager of any operation, the safety of employees under your care is paramount. Machinery access has come along way since the days of climbing over the tracks of a D10. There is no disputing the benefits of ensuring all your machinery is fitted with a proper access system.

Decrease Maintenance Time

A proper equipment access system doesn't begin and end with the operator. Maintenance personnel not only benefit from the safe access, but also access areas of the machinery much faster, from a stable working platform that is always on the machine.

Why TefSteps?

The Tefol range of equipment ladder access systems are designed, engineered, manufactured, installed and supported by the same company - us. When you control all the elements of a product you can react quickly and change whatever you want. It didn't take us long to come up with the perfect balance of advanced simplicity and technological features.

TEF TRAILERS

SUMMARY

PRICING ON ENQUIRY

Amazing Remote Power Solutions.

A renewable energy source that can go anywhere and do **anything**.

Unrivalled Tefol Quality.

When some of worlds largest mining companies such as BHP Billiton and Rio Tinto look to Tefol to provide custom manufactured products, you know it has to be the best. The best materials, meticulous craftsmanship and most importantly the most reliable product available.

Tefol's engineering team have years of experience and work with all our customers to realise their unique requirements and create a masterpiece perfectly suited to their business.

TefTrailers are Tefol's amazing solution to remote power problems such as those commonly found on mine sites. They are the result of years of engineering, design, manufacturing and assembly and we think we've got the best product on the market.

Each requirement is treated separately and reviewed by Tefol engineers to ensure the end result achieves the correct result. We do not sell products, we insist on solving problems.

TTI WATER TRUCKS

PRICING ON ENQUIRY

Introducing our Partnership: Tefol and TTI Water Trucks

We are proud to announce that Tefol and TTI Water Trucks have joined forces to provide top-notch water truck solutions for our customers. Our partnership with TTI is a result of their expertise as a leading manufacturer of water trucks in Australia, designed specifically for Australia's rugged conditions.

Here's why we think TTI is the perfect supplier for our customers:

- 20% lighter than steel
- Built to last - Not to rust
- 15% more cost-effective than steel builds
- Full-featured fit outs options to streamline your business

That's not all!

At Tefol, we also offer a range of TATRA trucks and Isuzu trucks to supply for TTI builds or for any other business needs you may have. We are dedicated to meeting your every requirement and challenge.
