

## EFFORTLESS INSTALLATION, BEAUTIFULLY INVISIBLE, SIMPLE DESIGN

Paradigm Windows is proud to offer FlexScreen as our default screen solution for all 5 & 8-Series hung products. Designed to provide ultimate flexibility, durability and visibility this screen aligns with our hassle-free design making our products easy to operate and clean.

Like our windows, FlexScreen is designed to withstand extreme weather. This flexible frame is nearly indestructible, scratch resistant and hides within the screen pocket which eliminates the need to match paint. FlexScreen is available on Double Hung, Single Hung and Horizontal Slider window types, in full or half screen configuration.

### Durability

The FlexScreen has a PVC coated frame that provides incredible durability. In fact, you can toss this frame from the top of your house and it won't get damaged!

### Flexibility

The spring steel frame doesn't require any additional hardware to install. Just push the sides together and place in its screen track. Yes, it's that simple

### Visibility

FlexScreen makes the view from outside in and inside out even better. We also have upgraded the screen mesh to a less visible mesh improving the view.

\*If your window package contains other window configurations and you would like to match the screen mesh, choose Paradigm's Vista-Vu screen mesh option.

\*Locking screen is not available
