# PowerSafe Automation

## Intrinsic Safety Guarding

Technique applied to electrical equipment and wiring to hazardous locations limiting energy to a level below that required to ignite a specific hazardous atmospheric mixture.

PowerSafe Automation Capabilities:

- Design Hard Guarding
- Specify Intrinsic Safety Devices
- Offer direction for Engineering Support
- Sell the package to you
- Integrated Installation

Z-Purge System  
Class 1, Div 2 Areas

Low voltage  
Safety Switch

X-Purge System  
Class 1, Div 1 Areas

Design > Fabrication > Installation > Integration > Work Safely!

“Powering a Safer Work Environment”
