Proximity Warning & Alert Systems

Reduces the risk of accidental collisions and near miss occurrences around vehicles and personnel

ZoneSafe Antenna

Detects tags and communicates with vehicle control module. Logs tag detections; posts data to the cloud.

Personnel Tag

Tag is detected by the ZoneSafe antenna. It's worn by all personnel in the protected area.

Vehicle Control Unit

Provides audio/visual alert when a tag is detected. Communicates with the ZoneSafe antenna. Has an alarm mute button.

Driver Tag

This tag activates proximity warning and alert systems

Applications:

- Vehicle to person alert
- Walkway alert system
- Zonesafe crossing alert
- Vehicle detection system
- Asset protection
- Personal access control

Consult > Configure > Supply > Install > Train
