Shawn Mantel
Power Safe Automation

September 29, 2018

Dear Shawn,

Thank you and the entire Power Safe Automation Team for delivering on such a high-quality machine guarding project across our seven Lubricant manufacturing plants. Here at Phillips 66 we value Operational Excellence to the highest standard in all facets of our business, therefore we appreciate the work, expertise and recommendations you made to help us improve. The team did an outstanding job from the beginning with onsite assessments of each plant, detailed designs, and safe installations at seven operating plants.

The Power Safe Automation team did an outstanding and professional job delivering on a high-profile project for our business.

Sincerely,

A handwritten signature in black ink, appearing to read "Gerry Stephens". The signature is fluid and cursive, with the first name "Gerry" being more prominent.

Gerry Stephens, MPH, CSP
