## Access Door Locking Safety System (Turn a basic machine guard into a "SAFE" guard)

Restrict workers from inherent hazard and prevent scrap by allowing machine to stop cycle

Consists of:

- RFID magnetic safety switch
  - with locking solenoid
  - mounting brackets
  - mounting hardware
- Lock timer module
- Safety controller
- Indicator light w/ mount
- Request to enter controls

Applications:

- Machine enclosures
- Perimeter guarding
- Robot cages
- Security fencing

Tamper-resistant screws

For a faster & cleaner installation check out our optional **PowerControls**, an e-safety device > machine integrator

Design > Fabrication > Installation > Integration > Work Safely!
