

Automated Assembly Machines

Turnkey solutions consisting of mechanical, fluid power, electrical, controls, & programming

Improves Quality • Increase Efficiencies • Expands Capacity
 Reduce Labor Costs • Reduce Lead-times • Improves Worker Safety

Types of Systems:

- Single-Station Assembly
- Multi-Station Assembly
- Includes:
 - Part Shuttles
 - In-line
 - Indexing

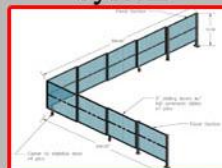

Capabilities consist of on-staff engineers, design/programming software, tooling, mills/drills, saws, shear, grinders/sanders, guages & measuring devices, printers, material handling equipment, and internal systems to facilitate your project.

We also provide Turnkey Safety Guarding services
