Shawn Mantel  
PowerSafe Automation

April 21, 2020

Dear Shawn,

Thanks to you and the team at PowerSafe, our move went extremely well. We moved our entire facility from two leased buildings into one brand new 50,000 square foot facility in less than 2 weeks. Months before the move, we partnered with PowerSafe to strategically deliver new assembly lines, machine enclosures, custom packaging stations and upgrades to existing guarding all while we were shut down. As always, construction delays and permit approvals impacted our timeline but when we were left with no time at all to move and implement everything, your team delivered and installed our projects and kept coming back until they were completely set up to meet our needs. Without your tremendous support, we would not have been back up and running when we needed to. Most of our customers didn't even realize we moved.

Thanks again for the outstanding service and I look forward to partnering with you again.

Sincerely,

Daryl Johnson  
Engineering Manager
