Internet Crimes Against Children—
@ Parker Police Station

Join us for an educational session, with a Parker Police Detective, to understand the responsibilities of the Douglas County Internet Crimes Against Children Task Force.

This team does incredibly difficult and important work to protect our community's young people from looming online threats. We'll hear about the challenges they face, how they investigate those crimes and how we all can play a role in keeping our kids safe. We hope to see you September 9.

Bear spotted in Parker, oh my!

Colorado Parks and Wildlife is aware of the young bear and is monitoring his whereabouts. To learn more about bear behavior and safety check out the CPW website

"I grew up in this school district and went to this elementary school," Davison said. Davison added that being back at his "old stomping grounds" is a surreal feeling, "I mean, coming in and seeing staff that I knew when I was in second or third grade, it's super unique."
