

# ENHANCED MOLECULAR DELIVERY ANTI-AGING PROGRAM

#### **POSITIONING STATEMENT**

LifePak® Nano is a nutritional anti-aging program formulated to nourish and protect cells, tissues, and organs in the body with the specific purpose to guard against the ravages of aging. LifePak® Nano offers the highest bioavailability with a first ever nanotechnology process and advanced levels of key anti-aging nutrients in a comprehensive formula available exclusively through Pharmanex.®\*

LifePak® Nano helps protect your health today and throughout your lifespan with superior anti-aging benefits. This proprietary formula protects DNA and cells, nourishes and protects the brain, bolsters the immune system, supports cardiovascular health, helps regulate blood sugar metabolism, protects eye health, helps build strong bones, promotes joint function and mobility, helps protect against the effects of sun radiation, and helps maintain healthy skin tone and elasticity.\*

LifePak® Nano provides an advanced nutritional foundation for a long and healthy life—full of vitality and energy—free of debilitating conditions associated with nutritional deficiencies and the aging process. Convenient packaging of two CR-6 LipoNutrients® softgels and five gelatin capsules in one sachet makes it easy for all adults to take LifePak® Nano every day with their morning and evening meals.\*

### **CONCEPT**

Enjoying excellent health throughout one's lifespan begins with proper nutrition. For many adults, however, there is an even greater concern with the effects aging has on the body. Adults who want optimal health now, and for years to come, must combat the ravages of aging with an anti-aging supplement program, healthy diet, exercise, and rest.

Our bodies are subjected to many unnatural—and often extreme—demands from our modern lifestyles, including unbalanced diets, environmental pollution, insufficient physical activity, and physical and mental stress. This constant bombarding of the body's systems has a day-by-day effect that can result in advanced signs of aging in the body, even before one feels or sees the onset of aging. In fact, many studies suggest that if you don't have enough antioxidant protection, you are accelerating the aging process. For example, sun exposure creates free radicals in your skin that can contribute to the production of wrinkles over time. But you can't see the damage until the wrinkles appear, and by then, you are too late.

# THE NEED FOR BOTH COMPREHENSIVE AND HIGHLY ABSORBABLE ANTI-AGING NUTRIENTS

There are extreme demands placed on our bodies every day and our bodies are aging every minute. With every generation living longer, there is an even greater need for anti-aging nutrients, as well as common nutrients, to be readily available for our use. Equally important to getting the comprehensive range of anti-aging nutrients is getting optimal nutrient absorption. But getting the right nutrients with the most efficacious bioavailability can be a challenge because certain fat-soluble nutrients are poorly absorbed—regardless of age, lifestyle, or genetics. That's where the science of nanotechnology comes into play.

### **TECHNOLOGY IS THE FUTURE**

Nanotechnology is evident in every aspect of our modern lives. From manufacturing to chemistry, nothing has revolutionized how we function each day more than nano. Simply put, nanotechnology is the science of manipulating substances at the molecular level, and until now, only certain

industries have been able to adapt this technology to actual consumer products.

# NANOTECHNOLOGY HELPS MAKE NUTRIENTS MORE AVAILABLE TO THE BODY

Pharmanex has revolutionized a way to apply nanotechnology principles to anti-aging nutrients. When applied to nutrition, this nano process involves physically altering a hard-to-absorb nutrient so that it becomes more available to the body without altering its function. For example, fat-soluble vitamins, like carotenoids and CoQ10, tend to bunch together in the intestine, making them difficult to absorb. To enhance absorbability, individual molecules are separated using nano encapsulation. This process prevents molecules from clinging together so they are more available for easy absorption. This superior bioavailability with new patent pending CR-6 LipoNutrients® is a first-ever formula to deliver NanoCoQ10® and nano carotenoids along with other nutrients for maximum anti-aging benefits. In the case of coenzyme Q10, this process of nano encapsulation increases bioavailability by 5-10 times\* (Craft et al, 2005).

### LIFEPAK® NANO IS THE INNOVATION IN ANTI-AGING

LifePak® Nano offers the highest bioavailability with a first-ever nano-technology formula and advanced levels of key anti-aging nutrients in a comprehensive formula available exclusively through Pharmanex®. LifePak® Nano is a monumental advancement in anti-aging protection with three scientific innovations: superior bioavailability with new patent-pending CR-6 LipoNutrients® in a first-ever formula that utilizes nanotechnology to deliver NanoCoQ10® and nano carotenoids; broad range cell and body protection with a proprietary nano carotenoid formula including novel antioxidants, NanoCoQ10,® and omega-3 fatty acids; and key ingredient advances for heart and cell health benefits including resveratrol polyphenols and a new vitamin E blend.\*

# LIFEPAK® NANO ADDRESSES SPECIFIC HEALTH NEEDS WITH COMPREHENSIVE FORMULAS IN ONE PRODUCT

LifePak® Nano consists of individual product formulas scientifically combined into one convenient product. Each sachet contains two CR-6 LipoNutrients® softgels, one vitamin capsule, one phytonutrient capsule, and three mineral capsules.

## ADVANCED ANTI-AGING NUTRIENTS FOR BEST-IN-CLASS CELLULAR SUPPORT

LifePak® Nano delivers more than 60 antioxidants for broad range cell and body protection, including carotenoids such as zeaxanthin and astaxanthin, and anti-aging powerhouses NanoCoQ10,® omega-3 fatty acids, and resveratrol for

advanced anti-aging protection. LifePak® Nano also delivers an updated vitamin E complex blend according to latest scientific research with higher amounts of beta, delta, and gamma tocopherols.

# INCREASES NUTRIENT ABSORPTION FOR MAXIMUM BENEFIT

Superior bioavailability is achieved with new patent pending CR-6 LipoNutrients® in a first ever formula that utilizes nanotech-nology to deliver NanoCoQ10® and nano carotenoids. Fat soluble nutrients, like carotenoids and CoQ10, tend to cling together in the digestive tract, making them difficult to absorb. To enhance absorbability, individual molecules are separated using nano encapsulation. This process prevents molecules from clinging together so they are individually dispersed and more available for easy absorption.

Nanotechnology is only one example of methods Pharmanex® has employed to improve absorption of LifePak® Nano's nutrients. Beyond nanotechnology, LifePak® Nano employs other methods to enhance bioavailability, including liponutrients, chelated minerals, and buff-ered vitamin C. Each of these nutrient forms were selected for their superior absorption properties.

# PROTECTS CELLS WITH A POWERFUL ANTIOXIDANT NETWORK

LifePak® Nano contains more than 60 antioxidants, including proprietary Tegreen 97,® for cell health. Our bodies are under constant attack by free radicals, and science has shown that a network of antioxidants, rather than a high amount of one single antioxidant, is more effective in combating these damaging molecules. Free radicals contribute to the aging process and are implicated in most health conditions. Antioxidants fight free radicals to help slow the aging process and improve health. Antioxidants have an effect on more than 50 health conditions, including cardiovascular function, eye health, CNS health, and skin health. The body relies on a steady supply of dietary antioxidants to maintain optimal health. LifePak® Nano includes all eight forms of natural vitamin E, buffered vitamin C, selenium, copper, zinc, and manganese. Other antioxidants include six carotenoids, more than 20 flavonoids (including catechins and more than 10 grapeseed polyphenols), and alpha-lipoic acid.\*

### **CORRECTS NUTRITIONAL DEFICIENCIES**

LifePak® Nano improves the foundation of your daily health by supplying the body with 20+ essential vitamins and minerals for optimal health and energy.

#### IMPROVES BONE HEALTH

Bone health is a growing concern globally, especially for women. LifePak® Nano provides key bone nutrients in clinically significant amounts to strengthen and maintain bone health. Bone minerals calcium (600 mg) and magnesium (300 mg) are included in LifePak® Nano as the building blocks of bone health. LifePak® Nano provides vitamin D to regulate calcium and magnesium bone metabolism, as well as vitamin K to help transport calcium to the bone.

### **BALANCE IMMUNE SUPPORT**

Vitamins A, C, E, carotenoids, vitamin B6, and zinc help to bolster the immune system and give your body the nutrients to perform optimally. LifePak® Nano contains optimal levels of these nutrients to support the normal function of the immune system and keep the body healthy.\*

#### SUPPORTS BLOOD SUGAR METABOLISM

LifePak® Nano maintains normal blood sugar levels, glucose tolerance, and insulin metabolism by supplying the body with optimum amounts of chromium, vitamin C, vitamin E, alphalipoic acid, mag-nesium, and zinc—important nutrients clinically shown to support normal blood sugar metabolism.\*

# HELPS PROTECT THE BODY WITH CARDIOVASCULAR NUTRIENTS

LifePak® Nano provides the optimum amounts of more than 60 different antioxidant nutrients that work synergistically in the body to protect the LDL blood lipids from oxidation by free radicals. LDL cholesterol is a bad cholesterol that needs to be kept at low levels. It can also become oxidized in the body. LifePak® is clinically proven to make LDL particles more resistant against oxidation from free radicals.\* In addition, omega-3 fatty acids help protect the heart.

# HELPS PROTECT THE BODY AGAINST THE SYMPTOMS OF AGING

In addition to dozens of advanced anti-aging nutrients such as NanoCoQ10 $^{\circ}$  and 60+ antioxidants, LifePak $^{\circ}$  Nano contains pro-prietary Tegreen 97 $^{\circ}$ —one of the most powerful antioxidants on earth—to address the central cause of aging: cellular DNA damage.\*

### THE LEADER IN NUTRITIONAL SUPPLEMENTATION

LifePak® Nano is the leader in nutritional supplementation with a complete anti-aging program formulated to nourish and protect cells, tissues, and organs in the body with the specific purpose to guard against the ravages of aging. LifePak® Nano is the world's most scientifically balanced antiaging supplement for adults 18 years old and older who want optimal health today and throughout their entire lifespan.\*

#### PRIMARY BENEFITS AND FEATURES

- Nourishes and protects cells, tissues, and organs in the body with the specific purpose to guard against the ravages of aging each day.\*
- Superior bioavailability with CR-6 LipoNutrients® enhances uptake from the gut into the bloodstream and body for maximum anti-aging benefits.\*
- Advanced anti-aging formula helps protect the body with key nutrients such as NanoCoQ10® and nano carotenoids.\*
- Helps maintain normal inflammatory responses in the body.\*
- Feeds and helps protect the brain with DHA and EPA
- CR-6 LipoNutrient® softgels contain the same amount of EPA and DHA as two MarineOmega softgels).\*
- Offers superior DNA protection against free radical damage by providing the body with important antioxidants and phytonutrients such as alpha-lipoic acid and catechins.\*
- Protects cell health with an antioxidant defense network.\*
- Helps protect cardiovascular health with a comprehensive blend of omega-3 fatty acids and other nutrients.
- Provides comprehensive bone nutrition support.\*
- Promotes healthy immune function.\*
- Supports normal blood sugar metabolism.\*
- Corrects nutritional deficiencies \*
- Is SCS certified.\*

### WHAT MAKES THIS PRODUCT UNIQUE?

- New Pharmanex® nanotechnology CR-6 LipoNutrients® have a patent-pending process that allows nutrients to be formulated for optimal absorption.
- Concentrated omega-3s help maintain normal inflammatory responses and provide other anti-aging benefits.\*
- Resveratrol (the polyphenol to which scientists attribute the health benefits of red wine) for brain, heart, and anti-aging health.\*
- More advanced and balanced vitamin E blend for better anti-aging protection.\*
- Improved sources of magnesium and calcium for better tolerance and absorption.
- Provides more than 60 different antioxidants.
- Supplies the body with liponutrients and nano carotenoids in two CR-6 LipoNutrient® softgels

containing astaxanthin, zeaxanthin, beta-carotene, lutein, and lycopene.

- The first comprehensive dietary supplement to show antioxidant benefits in double-blind, placebo-controlled studies
- Provides clinically significant amounts of essential vitamins and minerals typically lacking in the diet.
- Promotes an entire antioxidant defense network to protect against free radical damage.\*
- Provides a wide range of antioxidants for optimal benefits.

#### WHO SHOULD USE THIS PRODUCT?

Every adult 18 years old and older concerned with improving their health should take LifePak® Nano.

#### **DID YOU KNOW?**

- Nanotechnology is the science of manipulating substances at the molecular level and can enhance the absorption of important nutrients.
- Omega-3 fatty acids are more desirable from a marine source than from a plant source for two reasons:
- 1. Most plant and vegetable oils offer limited amounts of omega-3 fatty acids (less than 1%).
- Even the best plant sources (such as flaxseed oil) do not offer EPA and DHA, the specific omega-3s with the most notable health benefits.
- The DNA in each cell of the body receives 10,000 free radical hits each day.

### FREQUENTLY ASKED QUESTIONS

How does Lifepak® Nano improves delivery of certain fat-soluble vitamins?

While some nutrients in LifePak® Nano have been enhanced through nanotechnology, others have been enhanced through their delivery in liponutrient form. Fat-soluble nutrients, such as vitamins A and E, have been included as part of the CR-6 LipoNutrients® softgel capsules. Because these fat-soluble nutrients are delivered in a matrix of essential omega-3 fatty acids, they are pre-dissolved for superior bioavailability.

### What is nanotechnology?

As applicable to nutrition, nanotechnology is the manipulation of nutrients at the molecular level to enhance their benefits to the body. A nanometer represents one billionth of a meter and provides a useful unit for measuring ultra-small molecules. The application of nano-technology

employed by Pharmanex® is a mono-molecular encapsulation where single molecules of important nutrients are embedded into single nanocapsule molecules. Since every single molecule of each nanoized nutrient is wrapped in its own individual nanocapsule, there is complete molecular dispersion of the fat-soluble nutrients. With complete molecular dispersion, the surface area of the nutrient is maximized, as is its contact with the lining of the gastrointestinal tract. The nutrient is absorbed through the gut, and the encapsulating molecule is left behind where it is degraded by digestive enzymes.

### What does CR-6 LipoNutrients® stand for?

Each serving of LifePak® Nano is delivered in a convenient twin sachet packet; one side contains five dry capsules, and the other side con-tains two CR-6 LipoNutrients® softgel capsules. The meaning of the name CR-6 stands for the six carotenoids (CR=carotenoid) present in the softgel capsule. In addition to the six carotenoids, other fat-soluble vitamins are delivered along with essential omega-3s (equivalent in potency to a serving of MarineOmega). The name CR-6 LipoNutrients® refers to all the contents of the softgel, all of which are fat-soluble nutrients and are enhanced through pre fat-dissolved delivery, or enhanced with nanotechnology.

### Who should take Lifepak® Nano?

LifePak® Nano is intended for adults 18 years old and older who are looking for the most advanced and comprehensive dietary health and wellness supplement. LifePak® Nano is ideal for individuals who were previously taking either LifePak® LifePak® Prime, or LifePak® Women in conjunction with MarineOmega. Due to LifePak® Nano's unique delivery of certain antioxidants, it is also ideal for individuals who are genetically predisposed to poor absorption of carotenoids. Also, people prone to supplement-induced nausea may find that LifePak® Nano's sources of minerals are better tolerated.

# Do I still need to take MarineOmega if I take LifePak® Nano?

Previous to the introduction of LifePak® Nano, all LifePak® family products were recommended to be taken with MarineOmega. Each serving of LifePak® Nano delivers the same levels of EPA and DHA as found in one serving of MarineOmega. If you continue taking any LifePak® family product other than LifePak® Nano, it is still recom-mended that you take MarineOmega.

Why is it important to take LifePak® Nano twice a day? LifePak® Nano is a comprehensive supplement that contains a potent blend of essential micro- and macronutrients, as well as semi-essential nutrients shown to be generally beneficial to long-term health and well-being. It should be taken twice daily to provide your body with optimal saturation and absorption of vitamins and minerals. Twice daily delivery also provides your body with 24-hour antioxidant protection of water-soluble antioxidants that are flushed out of the body throughout the day.

#### What is an antioxidant network?

There are hundreds of different antioxidants that can help fight free radicals and reactive oxygen species. Researchers have found that the body utilizes a broad range of antioxidants that work together to provide the body with optimal free radical protection. These anti-oxidants work synergistically to protect all of the delicate DNA in the body from free radical attack. It has been found that if just one or two of these antioxidants are deficient, other antioxidants in the body are not able to function optimally. Moreover, because of this antioxidant network, humans have a need to supplement their diet with a broad range of antioxidants, as found in LifePak® Nano's 60+ antioxidants.\*

What is the difference between LifePak® Nano, LifePak.® LifePak® Prime, LifePak® Women, and LifePak® PreNatal? LifePak® Nano has been formulated to meet the nutritional needs of all adults 18 years old and older with the exception of pregnant women. LifePak® Nano delivers the benefits of LifePak,® LifePak® Prime, and LifePak® Women, but with the exciting addition of nano-technology and CR-6 LipoNutrients.® CR-6 LipoNutrients® softgels offer enhanced absorption for nutrients known to be poorly absorbed. Also, the CR-6 LipoNutrients® softgels contain ultra-pure fish oils in amounts equivalent to a full serving of MarineOmega. A few ingredients that are available in LifePak® Prime (ginkgo and glucosamine) and LifePak® Women (isoflavones and cranberry) are not offered in LifePak® Nano. However, most of the targeted benefits of these ingredients are provided through ingredients unique to LifePak® Nano. Other benefits can be achieved through separate Pharmanex® products like Estera® Cranberry.

#### OTHER INGREDIENTS

Gelatin, Microcrystalline Cellulose, Glycerin, Beewax, Gamma Cyclodextrin, Croscarmellose Sodium, Stearic Acid, Magnesium Stearate, Ethyl Vanillin, Silicon Dioxide, Titanium Dioxide.

#### **DIRECTIONS FOR USE**

Take two (2) twin sachet packets daily. Take the contents of one(1) LifePak® Nano twin sachet (five capsules and two softgels) with eight (8) ounces of liquid with your morning and evening meals.

#### **WARNINGS**

Contains shellfish. Pregnant or lactating women, diabetics, hypoglycemics, and people with known medical conditions should consult with a physician prior to taking supplements.

### **GUARANTEE**

No added sugar, salt, wheat, yeast, dairy products, preservatives, or artificial colors. LifePak® Nano is not manufactured with gluten ingredients.
