## CS-HDEXTSRPOE HDMI® EXTENDER OVER SINGLE CAT6

 SALES 386-255-0234

### PRODUCT OVERVIEW

The CS-HDEXTSRPOE extends an HDMI® signal up to 50 meters (165 ft) over single CAT6 without losing resolution, providing full HD signal when using a high-quality CAT6 cable. Some source/display combinations may not work well with EDID controlled extenders, in which case this extender is a great cost-effective solution. It has an HDMI® loop out on the transmitter and supports IR passback, IR blaster and an IR receiver.

- Carries 1080p HDMI® signals up to 50 meters over single CAT6
- HDMI® loop out on transmitter
- Supports IR pass back, IR blaster & IR receiver
- Extender kit is powered on the transmitter
- Standard EDID pass through (no EDID control)
