

YOU....

You CRY...and they think that something is wrong

You LAUGH...and they look at you sideways

You SPEAK...and they say to keep quiet

You SCREAM...and they think you have lost your mind

You QUESTION...and they think you're crazy

You LOVE...and they think it's a phase

You HATE...and they think you are evil

You PRAY...and they think you're a fanatic

You BLEED...and they think you're overreacting

You LIVE...and they think you're reckless

You CALL...and they think you're a stalker

You UNDERSTAND...and they think you're clueless

You BREATHE...and they just look at you

You LEAVE...and they ask, "Why?"

You say GOODBYE...and they reply, "But I Love You, I Need You."

It all starts and ends with YOU...
