

You...

Dance.....like that band is playing just for you

Sing.....like you are the only one in the elevator

Play.....like the world is your own personal playground

Live.....like it is the cure to every disease on earth

Love.....like the existence of mankind depends on it

Breathe...like you and the air are one

Laugh...like it's the funniest thing you've ever heard

Cry.....like it's the saddest movie you've ever watched

Remember...to do all those things everyday of your life
