

ASA Higher Learning Prep

Health & Wellness Policy

All children entering the school/center are subject to a health and wellness check to enter the building. This policy will be strictly enforced by the morning staff (at the directive of Ms. Byrd). The wellness check will include:

- Student arrives wearing a face mask
- Temperatures are taken
- Looking at exposed skin (face, arms, neck, etc.)
- Masks will be lifted to see nose and mouth, for runny noses, unidentified rashes, bumps, etc.
- Band-Aids will be lifted to see what skin irritation or cut is being covered, etc.
- Shoe soles will be sprayed with Lysol
- Hands will be washed/sanitized before entering classrooms

Any student with a temperature, unidentified rash or other conditions, such as Ringworm, suspected hand, foot & mouth, chicken pox, monkey pox, diaper rash, Covid symptoms, open wounds, etc., etc. WILL NOT BE ADMITTED during morning check in. Should any causes for health concerns arise during the day, you will be notified to pick your child up to seek medical attention before he/she may return to the school/center.

ASA Higher Learning Prep WILL enforce the Health & Wellness Check-In as “Preventative Protocol”, no exceptions! This policy is not designed to inconvenience families, or invade the privacy of a child. It is in place to protect our students and staff, against the onset and spread of any contagious diseases, infections, viruses, etc.

We appreciate your cooperation and respect for the efforts we make to keep YOUR children safe.
