

It's Not the End of Summer - It's the Beginning of Amazing!

Summer 2022 - Beautiful!

I know we weren't quite sure what this summer was going to look like, what with that knock-down, drag-out winter, we endured, the deluge of water that arrived on JUNE 2nd, the general state of the world, and I think I heard there were locusts eyeing us up!!

But despite our uncertainty, it's been pretty beautiful weather-wise with lots of manageable days (let's not mention the humidity, shall we), nights that cooled down, and hopefully some wonderful memories being made in your lives.

I will tell you, Pico & I were able to spend the August-long with my children, parents, and sister. This set my heart and soul straight.

The shop continues to be busy now that drop-in shopping is still happening each day, and all those quilt tops getting long-armed. I'm planning for the seasons and months ahead.

Where to Begin?

Design Wall is proud to announce they are Winnipeg's only retailer of [Country Chic Paint](#) bringing you another dimension to your creativity.

Country Chic Paint is a mineral-based, chalk-like paint that can be used on just about any surface you can dream up.

If you need a new DIY project, looking to have a piece refinished, want to try your hand at something new, or want to buy an already (re)loved piece, be in touch. I have several pieces being refurbished now & look forward to showing them off in my window, for sale, one day soon.

If you don't see the colour or accessories you need - no problem; I'm happy to bring in the items. As my training continues, more & more exciting ideas will be available. Stay tuned and be sure to share your talents - I'll feature them here!

Always Something New to Love

From new lines of fabric, precuts & coordinates, to new long-arm quilting pantos, Design Wall is never the same store twice.

As always, safe window displays continue each week but the added bonus of drop-in shopping makes things feel a wee bit like the olden days - you know like 2019!!

What's Old is New Again

I've yet to hear anyone ask me when they're in the shop, "so, Simone, what's old?" So happens I do have a few things of interest that fall into the "old" category - well, maybe better put SOLD OUT category!

SAMPLE SALE

I've managed to accumulate a number of samples that not only delighted the eyes while you shopped in-store or in the window but they also helped me sell out of fabric in those lines. So, although "old", these pieces are new to my product offering. I'll be adding pieces as they come available, to my website, so you can see the general design, size and price, but you're always welcome to come & view them in the shop. Prices vary. One of each sample available so when they're gone, even my old is gone!

This may be a great way to give a quilt as a gift if you're running out of time or share this email with a friend who's not a quilt-maker but loves them like we do!

What's old is new again!
