I will keep working behind the locked doors

For the Safety of EVERYONE

Health authorities, government, and agencies from around the world are urging everyone to **#STAYHOME**.

I want you all to heed these pleas.

I will continue to work behind locked doors & assist people any way I can:

Protocol: I will keep my doors locked and have my lights on - I will maintain regular hours to assist anyone. Other ways to stay in touch are available.

Many Thanks

Thank you to all my supportive clients - I've been brought to tears many times this past week by your generosity and support - my words fall short.

I send much gratitude to you all!

Please stay safe! #stayhome
