

# Simplex HPR Joint Venture

**CAPABILITY STATEMENT**

**2025**

# Who we are

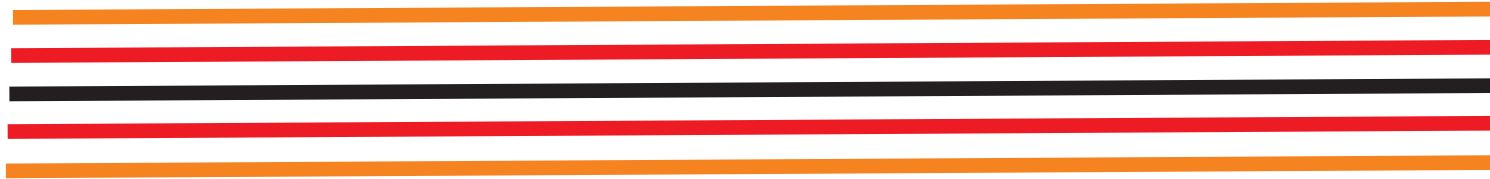

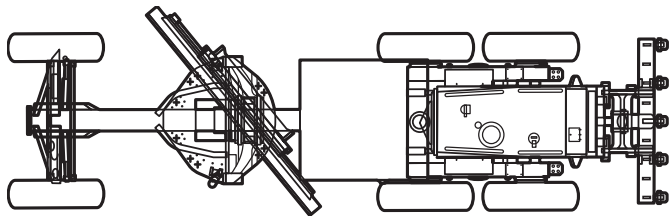

Simplx HPR Joint Venture is a collaborative partnership between Simplx Group and Heavy Plant Rentals, established to deliver and manage road and civil construction packages.

Simplx Group brings deep expertise in project management and asset management, with over 20 years of experience working alongside local government agencies. Our strengths lie in planning, risk management, governance, and delivering high-quality outcomes within complex public sector environments.

Heavy Plant Rentals is a highly experienced civil construction provider with a strong track record in roadworks, mining infrastructure, and large-scale site preparation. With a fleet of modern machinery and a skilled workforce, Heavy Plant Rentals ensures efficient, safe and high-quality civil delivery.

Together, we offer a combined 30+ years of industry experience and bring together a diverse, expert team with deep knowledge in road construction, flood remediation, civil construction, project management, and stakeholder engagement.

## What we offer

The SHJV maintains a modern and diverse fleet of heavy plant and transport vehicles, suitable for large-scale reconstruction and remote operations. We can provide the following plant including operators.

Graders	Excavators
Rollers	Loaders
Compactors	Skid Steers
Water Carts & Tankers	Scrapers
Dump Trucks & Haulage	Cranes
Dozers	Heavy Haulage

Our team includes experienced operators, qualified supervisors, and technical experts capable of managing complex civil and recovery projects from start to finish.

Our project teams can include:

Project Manager	Safety Manager
Project Engineer	Trainer & Assessor
Supervisor	Labourers
Project Surveyor	Diesel Fitters
Site Administrator	

# Why choose us

- ✓ End-to-End Capability – From emergency response to full asset restoration and civil construction
- ✓ Proven Performance – Trusted delivery under QRA DRFA and civil contracts
- ✓ Regional Focus – Deep local knowledge and understanding of rural challenges
- ✓ Flexible Deployment – Rapid mobilisation of people and plant anywhere including remote areas
- ✓ Commitment to Safety & Environment – ISO-aligned systems and field leadership
