

Thank you

Time flies when one enjoys what they're doing.

It is amazing that one year has passed since we decided that we needed to close our doors to families and visitors due to Covid-19.

We are grateful for having an amazing staff that loves our residents, and also loves what they do. Their selfless dedication to keeping our residents safe throughout this past year has been wonderful and admirable.

We are proud to be working alongside them each and every day. From the Laundry, Housekeeping and Environmental team to the CNAs, Nurses, Therapists and Physicians. Of course, our Social Service, Recreation, Dietary staff and all the rest of our Clerical Support Team, everyone deserves recognition for keeping Silver Lake Covid-free.

It was no easy feat allowing families to begin visiting as early as the summer of 2020. We were adamant about the importance that the families maintain contact with their loved ones, and we continue visitation up until today.

Special thanks to our "Infection Control Patrol": Patricia Abbruzzese, Ellen Madigan and Dr Louis Emmer Words alone cannot show our gratitude for all that you do.

Love,

Tina Torricelli
