Emerald and Diamond Halo Ring

One 18 karat (tested) gold ring, made in the Victorian Style, with one (1) central, oval, natural emerald, held with 17 prongs. This central emerald sits up about 5.40 mm from the finger. The emerald is surrounded by seventeen (17) round, natural diamonds. Each of the seventeen diamonds is set with four shared prongs and a single prong on the outside edge. The emerald and its halo measures a total of 16.30 x 13.30 mm and sits atop an open gallery. The settings for the central emerald and its halo is nestled between a trefoil design on each shoulder of the band. The band just below the trefoil designs is plain and half round, measuring 2.60 mm wide at the shoulders, and tapering down to 1.90 mm wide at the bottom of the ring. The ring is a cast and hand-finished production with a high polish. The ring weighs 4.25 grams complete. The estimated total diamond weight in this ring is 0.55 carats.
