

Advanced Eye Associates

ePrescription Consent

Advanced Eye Associates has implemented ePrescribing in our office.

ePrescribing is a federally mandated initiative that requires all physicians prescribe in this manner by 2011.

ePrescribing software sends prescriptions over the internet to your pharmacy in a safe, secure way, through the same technology used by credit card companies. This helps protect the privacy of your personal information.

ePrescribing software also lets your doctor see important information like drug interactions and your prescription history.

Patient Consent

I agree that Advance Eye Associates may request and use my prescription medication history from other healthcare providers or third party pharmacy benefit payors for treatment purposes.
