

USCIS Requirements for I-693 Examination & Immunization

Allcare Medical Clinic, 148 Park Ave North, Renton, WA 98057

Thank you for having your I-693 examination with us. Please read below for the age-appropriate information.

Required Minimum Immunization if your age is..	<u>Vaccines Required (Subject to change by USCIS)</u> Please bring in original or photocopy of your immunization record if any. If you are unable to find your records, we may find them on WA state immunization registry, can do antibody blood test for certain vaccines or required vaccinations may be completed thru your doctor or pharmacy or by us for an extra charge.	<u>Procedure/Comments:</u>
65 and Over	<ol style="list-style-type: none"> 1. Tetanus shot (Td/Tdap) if you did not receive in last 10 years. 2. Varicella (Chicken pox) vaccine if no history of disease/immunity. 3. Pneumonia Vaccine (1-2 doses). 4. Flu Vaccine (during flu shot season as defined by USCIS) 	<p>#1. This is a special examination and does not replace the need for a comprehensive physical examination and other immunization updates from your primary care physician.</p> <p>#2. You will be tested for Syphilis and Gonorrhea if you are 15 yrs or older. Positive test results will be reported to the health dept per applicable laws, and you will incur further expenses if confirmative tests or treatments are needed.</p> <p>#3. Effective 10/1/18, You will need a blood test for tuberculosis (if you are 2 yrs or older) unless you have documented proof of prior positive blood test. Chest x-rays will be needed if you have positive blood test for tuberculosis. You may require additional evaluations if your chest x-ray is abnormal.</p> <p>#4. Immunizations: It is important that you provide us with your prior immunization records. Immunizations play an important role in prevention of many communicable diseases. See the immunizations required on left side. We recommend that you follow up with your personal physician to complete immunization series that may be appropriate to your age.</p> <p style="color: blue; text-decoration: underline;">Clinic Use: (Vaccines/Ig screen needed to complete I-693 paper work & other notes:</p>
